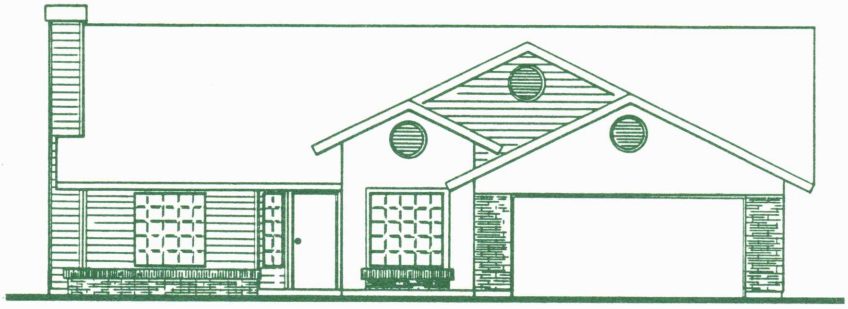
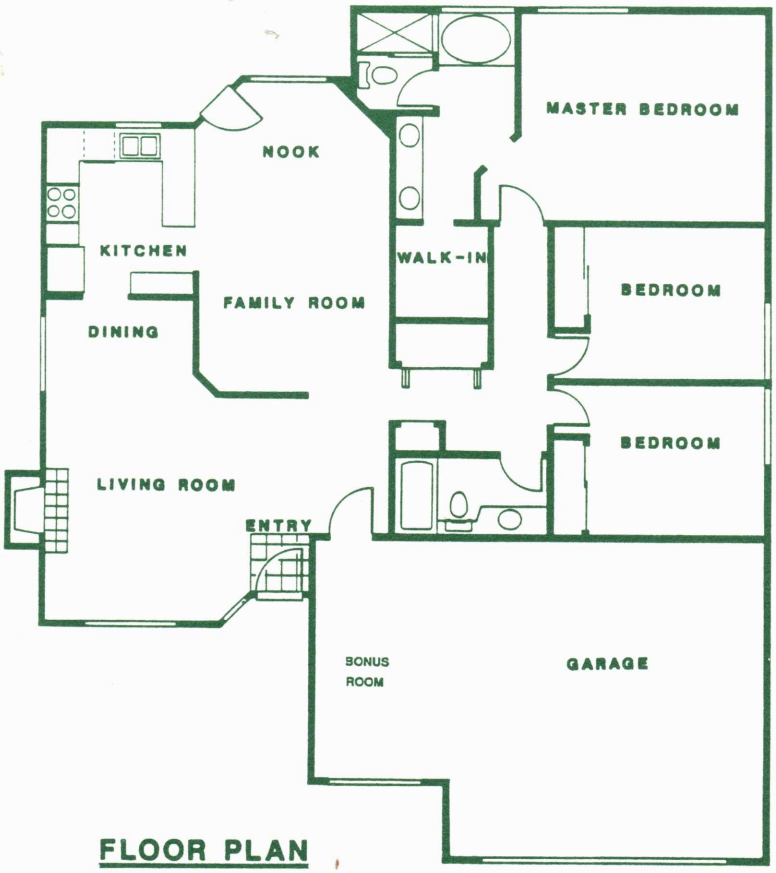
THE WESTLAKE



1610 sq. ft.



FLOOR PLAN

Step into the Westlake, into the spacious living and dining areas complemented by their vaulted ceilings. Behind a carefully-crafted New England style exterior is a true California style home. The heart of this home is the family room and dining area adjoining the country kitchen. A French door in this cozy room leads to the pool-sized yard. At the end of the bedroom wing, past the laundry area, is a fully appointed master suite. A grandly scaled suite with an oversized oval tub, separate shower, dual vanities and walk-in closet, it is a true California style retreat.
