A VTrips Experience

This initial gross rental projection is based on the performance of similar vacation rental properties and the limited property information available when prepared. Actual net proceeds may differ materially due to property condition, layout, furnishings, existing and future regulations, economic, social and political conditions, weather and other environmental factors outside VTrips' control. VTrips makes no representation or warranty, express or implied, regarding this estimate's accuracy. Gross and net rent proceeds exclude non-rent fees paid directly to VTrips for operating costs, such as cleaning or channel costs. You should not place undue reliance on this projection. Estimated rental revenue is not guaranteed and is not net owner income.
