WORK PROCESS. Before Dealer starts work, you will receive a design for the System. You may request changes for five days after receiving the design. If Dealer does not hear from you by then, Dealer will suspend the plan and make at least two more attempts to contact you to schedule the work based on the design. After two attempts, Dealer will cancel the Order if the Member is not responsive. If the Member responds and wants to schedule the work, Dealer usually needs one to two weeks at the Property to install a typical System. Holidays, bad weather, shortages of labor or materials, work by other contractors, your delay in completing any site preparation work you agreed to, or other events beyond Dealer's control are typical reasons for delay. The work is considered complete when the building permit is signed-off or, if that is not required, the date on which installation of the System is complete. If you require work at the Property to be completed in more than one phase then a Change Order may be required to cover any increased costs.

WHAT YOU PROVIDE. You must provide Dealer with power and water for use during construction. If needed for monitoring, you must provide an internet connection near the site of the inverter.

PROACTIVE MONITORING SERVICE AND DATA. Dealer will proactively monitor your System for twenty-five (25) years. The parameters of our proactive monitoring service are follows:

- We will proactively monitor your solar energy system on a regular basis.
- If our monitoring system indicates that your solar energy system is not performing as expected, our monitoring team will investigate the matter remotely.
- If the investigation reaches a decision of no trouble found (NTF), we will not contact you.
- If the investigation confirms a potential problem that requires an on-site investigation, we will contact you and recommend a path forward.

Any labor required to either (a) perform maintenance on your System, or (b) to conduct an in-person investigation of your System, per the Proactive Monitoring terms above, are your financial responsibility as discussed in section 2 of the Limited Warranties.

In order for Dealer to perform proactive monitoring and the associated services, we need (1) your meter to be able to transmit data to Dealer; (2) your home energy monitor (the "Monitor") to be able to transmit data to Dealer; and (3) access to your energy usage data, System performance data, and potentially other data collected from you (collectively, "Data"). By signing this contract, you acknowledge that Dealer may not be able to provide monitoring services if you do not ensure that your meter and Monitor are fully functional. In a situation where your meter and/or Monitor are impaired, Dealer will make a good faith effort to proactively monitor your system to the best of our abilities, using whatever data is available. By signing this work order, you agree to give Dealer access to your Data for the following purposes (in each case to the extent permitted by law): (1) to provide and enhance the System; including but not limited to installing and commissioning your system, performing Proactive Monitoring, and delivering customer support for your System; (2) for Dealer's internal purposes, including, without limitation, research and development, improvement of Dealer's product and service offerings, and creation of new product and service offerings; (3) to customize content and communications Dealer may provide to you; and (4) for other purposes so long as the Data does not contain personally identifiable information (including where Data has been deidentified).

Dealer will not disclose any Data other than in the following circumstances: (1) where the Data does not contain personally identifiable information (including where Data has been deidentified); (2) in order to provide Dealer's products or services to you (including but not limited to (a) processing warranty claims related to your system on your behalf; and (b) working with third-party service providers who may assist us in collecting, hosting, maintaining, analyzing or otherwise processing Data for us); (3) if required to do so by any law or regulation or in the good faith belief that such action is necessary to comply with any law or regulation, in response to a court order, judicial or other government subpoena or warrant, or to otherwise cooperate with law enforcement or other governmental agencies; (4) if Dealer believes, in good faith, disclosure is appropriate or necessary to (A) take precautions against liability, (B) protect Dealer or others from fraudulent, abusive, or unlawful uses or activity, (C) investigate or defend against any third-party claims or allegations, (D) protect the security

or integrity of Dealer's services and any facilities or equipment used to make Dealer's service available, or (E) protect Dealer's property or other legal rights (including, but not limited to, enforcement of Dealer's agreements), or the rights, property, or safety of others; (5) to Dealer's assignees, affiliates, actual or prospective lenders, financing parties, investors, insurers, and acquirers; (6) disclosure to contractors, service providers and other third parties Dealer uses to support its business and who are bound by contractual obligations to keep personal information confidential and use it only for the purposes for which Dealer discloses it to them; and (7) for any purpose for which you have provided your express consent.

INTERNET CONNECTION. You agree to provide the System with continuous access to a functioning broadband internet connection with one (1) wired Ethernet port and standard electrical outlet, at your cost. SUNRUN BASE+ LIMITED WARRANTIES

Thank you for selecting Sunrun Installation Services Inc. ("Sunrun") to install your solar system (the "System"). This document sets forth the different warranties that cover your System, its components, and the installation. If you have any questions about the scope of this warranty, or any installation- or component-related issues, please contact Sunrun Customer Care at 888-858-2496 or membercare@sunrun.com.

(1) MANUFACTURER WARRANTIES. The solar panels and inverters installed as part of the System are covered by separate manufacturers' warranties (hereinafter, "Manufacturer Warranties"). Sunrun will assign to you any Manufacturer Warranties in effect upon installation. If any part of your system has failed and is within the manufacturer's warranty period, Sunrun will provide you reasonable assistance in contacting the manufacturer(s) and, where applicable, will apply for a warranty replacement on your behalf. Your equipment manufacturer has sole discretion over whether an equipment failure is covered under their warranty.

(2) LIMITED WARRANTY. Sunrun provides a limited warranty of ten (10) years (the "Limited Warranty Period"), counted from the date the permit is signed by the building inspector on all of its labor (the "Limited Warranty"). For the avoidance of doubt, this Limited Warranty does not cover parts already covered by the Manufacturer Warranties set forth in Section 1, above. During the Limited Warranty Period, Sunrun will at its expense repair or replace any parts or labor covered by the Limited Warranties. You may assign the Limited Warranty to a subsequent owner of the Property by providing Sunrun a written notice of the sale of the Property.

Any labor required to either (a) perform maintenance on your system, or (b) to conduct an in-person investigation of your system per the Proactive Monitoring terms in the Work Order, are your financial responsibility and are not included in the Limited Warranty. If the equipment manufacturer provides Sunrun with a reimbursement towards labor related to in-warranty repairs or replacements for your system, Sunrun will apply that reimbursement as a credit towards the cost of any work that it performs.

(3) ROOF PENETRATION WARRANTY. Sunrun also provides a roof penetration warranty of twenty-five (25) years (the "Roof Penetration Warranty Period"), counted from the date the permit is signed by the building inspector. During the Roof Penetration Warranty Period, Sunrun warrants that all roof penetrations Sunrun makes as part of the System installation will be weather-tight (the "Roof Penetration Warranty"). For the avoidance of doubt, this Roof Penetration Warranty does not cover parts already covered by the Manufacturer Warranties set forth in Section 1, above. During the Roof Penetration Warranty Period, Sunrun will at its expense repair or replace any parts or labor covered by the Roof Penetration Warranty.

(4) OBTAIN WARRANTY SERVICE. To obtain warranty service, you must notify Sunrun in writing or via email (at membercare@sunrun.com) of any defect. Provided that the relevant warranty has not expired, has not been otherwise voided, and is not subject to an exclusion, Sunrun will repair or replace the defect within a reasonable time after you notify Sunrun. Upon expiration of its Limited Warranties or the Roof Penetration Warranty there may still be applicable Manufacturer's Warranties. After the applicable warranty periods expire, Sunrun will provide a quote of its standard price for such work.

(5) WARRANTY EXCEPTIONS AND EXCLUSIONS. The installation of the System may void your existing roof warranty, if any. You should check with the roofer or builder concerning any impact the System will have on an existing roof warranty. Sunrun's 25 year Roof Penetration Warranty is not affected by any existing roof warranty. The Limited Warranty and Roof Penetration Warranty do not apply to (a) labor performed with parts not manufactured or purchased by Sunrun; (b) labor performed according to plans or specifications not provided or obtained by Sunrun, such as plans you provide; and (c) monitoring equipment and materials listed on the Work Order as Other Accessories & Equipment.

Repair of the following is specifically excluded from all of the above warranties: any parts that were modified, repaired or attempted to be repaired by anyone other than Sunrun without its prior written approval; damages resulting from abuse; damages due to animals, weather or natural disasters; damages resulting from mold, fungus and other organic pathogens; and fading of paints and finishes exposed to sunlight. You acknowledge that any work performed by a third party work is done incorrectly, the third party repairs may limit or negate our ability to provide certain services in this agreement, including but not limited to Proactive Monitoring, as provided in the work order, and the 25 year Roof Penetration Warranty.

By signing below, I acknowledge that I have read and understand the Limited Warranties.

SUNRUN SOLAR SYSTEMS

WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Thank you for your interest in the Costco Residential Solar program. Purchasing a Residential Solar System is a long-term commitment with financial obligations. Costco and Sunrun want your purchase to benefit you for many years. This is why we ask you to carefully read your contract and the following information, which is provided to increase your knowledge of important details of your purchase. By signing below, you acknowledge that you have read and understood the following information.

- *This is a non-refundable purchase. Please read and ensure you understand any and all contract provisions before purchasing.*
- Contract: The terms of the signed Home Improvement Sales Contract contain the entire agreement and supersede all prior or contemporaneous agreements, promises, representations, understandings and communications, whether oral or written.
- Utility Rate plan: It is your responsibility to confirm with your utility that the rate plan you are on is the most advantageous for a solar customer. Neither Sunrun nor Costco are responsible for any changes to utility rates or net metering policies.
- Pricing**:** The price listed covers the scope of work and materials specifically detailed in the contract. It does not include any additional work or materials that are not listed in the contract, or any work that may be required to meet non-standard zoning or engineering requirements. If additional work is required (e.g. main electrical panel upgrade, roof repairs, supplies and labor related to evaluating and building ground mounted systems, etc) a separate Home Improvement Contract (HIC) may be presented to capture the additional work and price.
- System Design/Savings: The proposed system size on the estimated quote is based on your last 12 months of historical electricity usage, if available, your home's square footage, and/or other preferences. You understand that your actual system design and price may change based on a detailed engineering site audit. The actual energy production and savings from your system will vary based on the final system size, design, configuration, utility rates, applicable rebates, system location, weather, and your home's future energy usage.
- Payment: You will be contacted by a Sunrun representative when payment is due. A Costco Purchase Order will be presented with the purchase amount, at which time Sunrun will collect your payment to be processed at Costco. Costco requires payment prior to installation for all purchases, with the exception of Massachusetts, Maryland, New Jersey, Wisconsin and Virginia, for which payment is to be made upon installation completion (Final Electrical sign off, prior to receiving PTO).
- Offset: Any projection provided to you regarding the system's offset of your home's energy usage is just an estimate. Actual offset (and associated savings) may vary significantly depending on a number of factors, including changes in your home's energy usage after installation of the system.
    - If you have questions related to production or offset, Sunrun may perform an analysis on your production and consumption after a full 12-months of operation.
- System Modifications: Systems cannot be modified after installation, including but not limited to size, location, product and application. If you have any requested changes, please submit those to your project manager prior to installation.
- Site Characteristics, Maintenance:

  - We will make best efforts to minimize site visits; however, multiple visits may be necessary to plan and install your system, and achieve Permission to Operate.
  - It may be necessary to periodically trim or remove vegetation to install the system and/or optimize the system's production. It is the homeowner's responsibility to maintain any landscaping which may interfere with the system's production.
  - If a critter guard (a physical barrier between your panels and the local wildlife) is necessary for your system, you will be responsible for the cost. It is not possible to determine which systems will require them prior to installation. If a critter guard is necessary, please contact Sunrun for a quote. Price will vary based on site characteristics and system size.
  - If the removal and replacement of the system is required for any reason after the system is installed (e.g. replacing the entire roof or performing spot repairs), the expense is the owner's responsibility. The cost varies based on site characteristics and system size. You may contact Sunrun for a quote for this work, to ensure any workmanship warranty remains in place.

- Costco Cash Card Benefit: The Costco Cash Card amount is an estimate only and will be verified by Sunrun prior to system installation. The Costco Cash Card amount is based on the pre-tax price of the modules, racking, inverter(s), and battery (if applicable) used for your system (installation is not included). It may take up to 4 weeks for delivery of your Costco Cash Card, which is issued upon signed completion of the project (final signature on Costco Purchase Order, obtained after electrical sign off).
- Interconnection/Permission to Operate (PTO)**:** The Utility is solely responsible for authorizing final interconnection of the system to the utility grid, and must give express authorization for final interconnection of the System before you may turn on the System and/or commence feeding power back to the utility grid. Approval differs by utility and may also vary based on utility backlog, time of year, etc. Your Project Coordinator will discuss the expected timeline with you.
- System Activation: It is your responsibility to activate your system once you receive permission to operate (PTO). After installation, Sunrun will provide system activation directions to you. If you have any questions or concerns, you may contact Sunrun for support.
- No Production Guarantee: Any system downtime will not be compensated; your purchase does not include a production guarantee.
- Financing: Neither Sunrun nor Costco offer financing for your solar system purchase; All financing used is strictly between you and your financing institution. You may use any lender of your choice. You are responsible to make timely payment to Costco for your purchase, regardless of any denials, disputes, miscommunications, or other issues with your chosen lender. Your lender may require you to begin repayment before your system is operational. Sunrun and Costco are not responsible for finance payments due to the lender prior to or after Permission to Operate (PTO).
- State and local incentives/rebates: Please see your agreement for complete details on available incentives/rebates.
- Federal Solar Tax Credit: You acknowledge that you must self-file for the Federal Solar Tax Credit on your federal income tax return. The tax information provided in your proposal is intended for discussion purposes only and should not be construed as tax advice. Actual tax credits will be based on your financial situation. We recommend that prior to your 5-day right to cancel, you contact an accountant or tax attorney for eligibility and any specific financial advice. Sunrun and Costco are not liable for any loss of tax credits. Questions to ask may include:
  - Do I have enough income tax liability to make use of the Federal Solar Tax Credit?
  - Does the way I use my property change my ability to claim the credit?
  - What year can I claim the credit?
- Homeowner's Association (HOA): If you live within a HOA, you understand that you are responsible for submitting documentation and gaining approval from the HOA for your solar project. You acknowledge that this approval may delay your solar installation. Sunrun and Costco are not liable for any HOA disputes.

To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below.
