Age of Key Components

106 W Seeboth St, Unit 218 | Milwaukee, Wisconsin

Key Details: per Seller. Please note these features and details are in addition to those denoted in MLS. Please consult the MLS Datasheet for more information.

HEATING & COOLING

Heating & Cooling:

One in-unit HVAC system — Replaced 2024

Per the association, in-unit heat pumps exist to control heating and cooling. The cooling tower supplies water to the heat pumps for them to cool efficiently in the spring and summer. The building has a boiler system on the 12th floor roof that heats the domestic water.

OTHER SYSTEMS

Reverse Osmosis Filtration System — Installed 2025 (under kitchen sink faucet)
