INVOICE

Retaining wall was repair on the highlighted areas from the original quote
And we had to remove and reinstall the rest of the blocks towards the west side of the wall!
We installed drain tile behind the wall, as well as under it
And because of the extra work, it will be extra $2000 of the grand total of $12,000
Of which $5000 have been paid. The remaining balance is $7000.

The upper wall it was very stable
And the gravel behind the lower wall did not erode

Services	amount
Retaining wall repair existing partial retaining wall will be taken out in prep for rebuild it · We will remove the existing wall block and set a side. · We will excavate and prep for the wall to be rebuilt. · We will install clear stone as needed, compacted base and prep for wall rebuild. · We will install 1” chip stone behind each course of block and in between each block, this will allow for proper drainage and add proper stability. · We will install Geo grid fabric to any area of the wall that is taller then 3’, this will add more stability to the wall. · Behind the wall we will install drain tile wrapped in a protective sleeve, this will also allow for the proper drainage of water. The quote provided of $10,000 to $12,000 is to repair the highlighted areas on the wall hoping that the upper wall don’t move when the gravel erodes if it happens. Or if more blocks need to be removed. We will be in contact with the client with relevant information about the project to let them know any changes.	$12,000.00
