Chapter 14 Gas Fireplace Operation During Snow Accumulation

§14.01 Purpose

The purpose of this Rule is to prevent roof ice buildup, ice dams, and resulting property damage caused by the operation of gas fireplaces during periods of snow accumulation and low temperatures.

§14.02 Applicability

This Rule applies to upper-level Units only. Lower-level Units whose fireplace exhaust vents terminate at least fifteen (15) feet below any roof edge or soffit are exempt, as heat dissipation at that distance is sufficient to prevent ice-dam formation.

§14.03 Prohibited Use During Snow and Low Temperature Conditions

A Unit Owner or Resident of an upper-level Unit shall not operate a gas fireplace when both of the following conditions exist:

(a) **Snow Accumulation.** There is one inch (1") or more of accumulated snow on the roofs; and
(b) **Temperature Threshold.** The outside air temperature or windchill value is twenty-five degrees Fahrenheit (25°F) or lower.

Fireplace use under these conditions is presumed to materially contribute to the formation of roof ice, ice dams, and attic condensation.

§14.04 Snow-Clearing Exception

(a) An upper-level Unit Owner or Resident may operate their gas fireplace during the conditions described in §14.03 above, only if the Unit Owner or Resident satisfies all of the following:
  (1) Prior to operating the fireplace, no less than four feet (4') of snow must be removed from the entirety of the affected roof edge(s) using a soft, non-metal, non-scraping snow rake;
  (2) If snowfall continues during fireplace operation, the Unit Owner or Resident must maintain the cleared four-foot (4') area throughout the duration of the snowfall event;
  (3) The Unit Owner or Resident must maintain the cleared area for at least one (1) hour after fireplace use has ended to prevent refreezing at the eaves;
  (4) The use of hard-edged rakes, metal scraping rakes, or any tool capable of damaging shingles is strictly prohibited.

(b) Failure to satisfy all clearing requirements voids the exception, and operation of the fireplace shall be considered a violation of §14.03 of these Rules.

Chapter 15 Insurance Rate Protection

(h) During the snow season, any Unit Owner or Resident choosing to park in a driveway rather than a garage is fully responsible for all snow and ice removal required to maintain clear access for vehicles, pedestrians, and Association maintenance operations.
(i) Moving pods, portable storage units, and temporary storage containers are prohibited anywhere in the Complex.
(j) **Exception:** Association contractors, vendors, and maintenance personnel, including the Board, are exempt from subsections (a), (b), (c), (d), (e), (f), (g), and (i) above when servicing or maintaining the Complex.

§22.02 Restricted Vehicles

(a) The following vehicles are prohibited from being parked or stored anywhere in the Complex unless fully enclosed within a Unit's garage, except as provided in subsection (b) below:
  (1) boats or boat trailers;
  (2) recreational vehicles (RVs);
  (3) campers or camper trailers;
  (4) utility trailers;
  (5) commercial vehicles exceeding three-quarter one ton capacity;

(b) Visitor vehicles may not remain parked in Visitor areas for more than seventy-two (72) hours without written permission from the Board.

(c) Unit Owners and Residents are responsible for ensuring their Visitors comply with all parking regulations.

§22.04 Garage Use

(a) Garages may be used for vehicle parking and storage at the discretion of the Unit Owner.

(b) Garage contents shall not:

(1) block emergency entry;

(2) create fire hazards; or

(3) violate municipal property or fire codes.

§22.05 Enforcement

(a) Vehicles parked in violation of this Chapter may be towed without further notice.

(b) Towing, storage, and administrative fees shall be the responsibility of the vehicle owner and the associated Unit Owner.

(c) Parking violations may also result in fines pursuant to Chapter 24 of these Rules.

Chapter 23 Water Usage

§23.01 General Water Conservation Requirements

(a) Unit Owners and Residents shall use water responsibly and avoid excessive or wasteful consumption that may strain building plumbing systems or increase Association utility expenses.

(b) Water leaks, dripping faucets, continuously running toilets, or any plumbing malfunction **originating from another Unit** must be reported to the Board immediately upon discovery. Plumbing issues that originate within a Unit Owner's own Unit must be promptly repaired by the Unit Owner without the need to notify the Board, unless such condition poses a risk of damage to other Units or the Commons.

(c) Unit Owners must promptly repair plumbing fixtures or conditions within their Units that cause water waste or risk damage to other Units or the Commons, with the same immediately reported to the Board.

§23.02 Outdoor and Exterior Water Usage

(a) Use of hoses is permitted for watering plants and shrubs.

(b) Use of hoses and pressure washers is permitted for washing vehicles, decks, and garages, provided:

(1) washing does not exceed two (2) times per Unit per month; and

(2) such allowance may be temporarily suspended by written resolution of the Board.

(c) The Association or its contractors may use hoses and pressure washers for building maintenance, cleaning, or other Association-authorized purposes.
(d) Use of hoses, sprinklers, pressure washers, or other exterior water devices for any purpose not listed in subsections (a) through (c) above is prohibited unless expressly authorized in writing by the Board.
(e) Water may not be directed onto neighboring Units, patios, decks, or the Commons in a manner that causes pooling, erosion, water incursion into the buildings, or nuisance.

§23.03 Interior Water Usage Requirements

(a) Unit Owners and Residents shall ensure that all appliances connected to water lines, including refrigerators, dishwashers, washing machines, water heaters, and water softeners, are properly installed and maintained.
(b) Replacement of water-using appliances must include proper connection of supply lines, drain lines, and shutoff valves to prevent leaks.
(c) Unit Owners are responsible for any damage caused by leaking appliances, fixtures, or supply lines.

§23.04 Responsibility for Water Damage

(a) If water damage originates from within a Unit and affects another Unit or the Commons, the responsible Unit Owner shall be responsible for all associated repair costs, regardless of fault, unless the cause is proven to be a Common Element failure.
(b) Any insurance deductibles or uncovered damages resulting from such water-related incidents may be specially assessed to the responsible Unit Owner.

§23.05 Winterization and Freeze Prevention

(a) Units left unoccupied for more than seventy-two (72) hours during the winter months (November through March) must be kept at an interior temperature of no less than 55°F.
(b) Units left unoccupied for more than fourteen (14) days during the winter months (November through March) must shut off the Unit's main water valve, or water supply valves to washing machines, toilets, and other fixtures.
(c) Frozen pipes, bursts, or flooding resulting from a Unit Owner or Resident's failure to maintain adequate heat or take reasonable winterization precautions shall result in the Unit Owner being responsible for all resulting damage.

Chapter 24 Violations and Enforcement

§24.01 General Enforcement Procedure

(a) All complaints submitted to the Board must be made in writing. Written complaints shall include:
  (1) the date and approximate time of the alleged violation;
  (2) the nature of the violation and a clear description of the observed conduct or condition;
  (3) the Unit number or location involved, if known;
  (4) any supporting evidence, including photos or witness statements, if available.
(b) The identity of the complaining party shall remain confidential and shall not be disclosed to the alleged violator, except as required by law or court order, and further provided that disclosure to law enforcement, if law enforcement was contacted, may also be necessary.
(c) When the Board becomes aware of a potential violation of the Declaration, Bylaws, or these Rules, the Board shall review the matter and may investigate or request additional information.

(d) If the Board determines that a violation may have occurred, the Association shall issue a written Notice of Violation to the Unit Owner, which shall include:
  (1) a description of the alleged violation;
  (2) the rule, bylaw, or declaration section violated;
  (3) any corrective action required;
  (4) the deadline for correction, if applicable; and
  (5) the potential or actual fine.

(e) Unit Owners shall be given an opportunity to respond in writing within the timeframe stated in the notice.

(f) If the violation is not corrected, or if the Board determines the violation warrants immediate action, the Board may impose fines, special assessments, or pursue other remedies consistent with these Rules.

(g) The Board may escalate enforcement for repeat or continued violations, including increased fines or legal action.

(h) Notwithstanding anything contained herein to the contrary, emergency situations involving threats to health, safety, or property may be addressed immediately without prior notice, and without first giving the responsible Unit Owner time to respond.

(i) In cases where multiple sections of the Declaration, Bylaws, or these Rules were violated, each violated section shall constitute a separate violation.

§24.012 Warnings and Immediate Enforcement

(a) A warning letter may be issued at the discretion of the Board for a first-time violation unless the violation:
  (1) is similar in nature to a prior violation by the same Unit Owner or Resident;
  (2) is a Parking-related violation;
  (3) is blatant, deliberate, or egregious;
  (4) poses a threat to health, safety, or property; or
  (5) involves conduct that is criminal in nature.

(b) For violations listed in subsection (a) above, the Board may proceed directly to imposing fines without issuing a warning letter.

§24.013 Multiple Responsible Owners; Equal Enforcement; No Proration

(a) **General Rule.** When a single act, occurrence, or condition constitutes a violation and more than one (1) Unit Owner is responsible for that violation (including responsibility arising from the conduct of a Unit Owner's Resident, Visitor, agent, contractor, or vendor), the Association may enforce the violation against each responsible Unit Owner.

(b) **Equal Application.** Except as provided in subsection (c) below or §25.02(b) of these Rules, the Association will issue the same enforcement level (warning or fine) to each responsible Unit Owner for the same violation event.

(c) **Prior or Similar Warning.** If the applicable enforcement procedure would otherwise provide for a warning, but a responsible Unit Owner has previously received a warning for the same or similar violation, the Association may issue a fine to that Unit Owner in lieu of a warning, while issuing warnings to other responsible Unit Owners as applicable.

(d) **No Proration; No Cost-Sharing.** When multiple Unit Owners are responsible for the same violation event, the Association will not reduce any fine amount for any Unit Owner by allocating, splitting, prorating, or otherwise distributing the fine among multiple Units. Each responsible Unit Owner is subject to the full fine amount (or warning, as applicable) assessed against them for that violation. **Stated differently:** If a $200.00 fine applies, it is $200.00 per responsible Unit Owner, not $200.00 divided by the number of Unit Owners involved.

(e) **Illustrative Example.** A vendor servicing three (3) Units parks on a main drive and partially on the grass in violation of the parking rule. Each of the three Unit Owners being serviced may be issued the full parking fine (e.g., $200.00 each, if that is the adopted fine amount for the violation).

§24.014 Disputes of Enforcement Notices

(a) **Dispute-Eligible Notices.** A Unit Owner may submit a written dispute only for the following enforcement notices issued by or on behalf of the Association:
  (1) Warnings;
  (2) Fines; and
  (3) Special assessments for damages / reimbursement specifically attributable to the Unit Owner, or the Unit Owner's Residents, Visitors, agents, contractors, or vendors (i.e., costs arising from damage or loss caused by that Unit).

(b) **Routine Assessments Not Eligible.** A dispute may not be submitted to challenge routine/common expense assessments or community-wide maintenance, repair, or replacement projects (e.g., reserve-funded or budgeted repairs such as roof replacement), which are not "damages" uniquely attributable to a specific Unit.

(c) **One Dispute Per Notice.** A Unit Owner is limited to one (1) dispute submission per violation notice (including warning, fine, or damage special assessment notice). Additional submissions, supplements, or repeated disputes regarding the same notice will not be considered unless specifically requested in writing by the Board.

(d) **Required Dispute Contents.** Disputes must be in writing and submitted within the time period stated on the notice. Each dispute must include:
  (1) The notice date, Unit number, and the specific rule/bylaw/declaration provision(s) identified in the notice;
  (2) A detailed rationale explaining why the Unit Owner contends they did not violate the cited provision(s) and/or why the notice is factually incorrect;
  (3) Supporting evidence (photos, video, documents, receipts, witness statements, or other reliable information) that substantiates the rationale; and
  (4) Any other information the Unit Owner believes is directly relevant to the Board's determination.

(e) **"Finger-Pointing" Disputes Not Considered.** Disputes that primarily argue or imply that another Unit Owner or Resident committed the same or a different violation will not be considered and may be denied on that basis alone.

(f) **Board Review and Determination.** The Board will review disputes based on the written submission, the evidence provided, and Association records. The Board may uphold, modify, or rescind the notice, in whole or in part, and will issue a written determination within a reasonable time. The Board's determination will then be considered final.

Chapter 25 Schedule of Fines

§25.01 Fine Schedule

(a) Violations of Chapter 3 Animals
  (1) First violation: $100.
  (2) Second violation: $250.
  (3) Each subsequent violation: $500.

(e) Violations of §10.01(c) (Snow Removal)
  $100 per occurrence, per week until corrected.

(f) Violations of Chapter 11 Electric Vehicles
  $1,000 per occurrence, per day.

(h) Violations of Chapter 18 Common Elements Obstructions, Outside Storage, Mailbox and Delivery Areas
  $100 per occurrence.

(i) Violations of §20.02 Prohibited Disposal Practices
  $500 per occurrence.

(j) Violations of Chapter 22 Vehicles and Parking Not Otherwise Scheduled
  (1) First violation: $100.
  (2) Second violation: $250.
  (3) Third violation: $500.
  (4) Subsequent violations: $1,000.

(k) Violations of §22.01 General Parking Regulations
  (1) $100 per occurrence.
  (2) An additional surcharge of $50 per tire parked on the grass.

(l) Violations of §22.02 Restricted Vehicles
  $250 per occurrence, per day until removed.

(m) Not Otherwise Scheduled Violations
  $100 to $10,000 per occurrence, as determined by the Board based on the nature and severity of the violation.

§25.02 Board Discretion, Non-Waiver, and Legal Remedies

(a) Fines may exceed $50.00 and may increase up to $10,000 per occurrence depending on severity, risk to life or property, repeat nature, or willfulness of the violation, pursuant to Bylaws §8.06(j), which authorizes monetary fines of not less than $50.00 uniformly levied and enforceable as assessments.

(b) Notwithstanding anything contained in these Rules to the contrary, the Board shall have the right to deviate from the above Schedule of Fines as it deems reasonably necessary or appropriate on a case-by-case basis, in its sole and absolute discretion. By way of illustration but not limitation, the Board may impose a written warning in lieu of a fine or increase the amount of any fine for egregious behavior.

(c) The Board reserves the right to pursue all remedies available to it at law and in equity to address violations of these Rules, the Bylaws, and the Declaration.

(d) Any fine imposed as a result of a violation of the Declaration, the Bylaws, or these Rules shall constitute an assessment enforceable under Wis. Stat. §703.165 as amended, the Declaration, and Bylaws.

(e) No delay or omission by the Board in enforcing any of these Rules, or in exercising any of the Board's rights or powers herein, shall be construed to be a waiver of any such Rule, right, or power.

(f) If any term or provision of these Rules or their application to any person, entity or circumstance shall be deemed invalid, illegal, or unenforceable to any extent by a court of law, the remainder of these Rules and their application shall not be affected and shall be enforceable to the fullest extent permitted by law.

§25.03 Damage Liability; Reimbursement; Special Assessment

(a) **Responsibility.** Each Unit Owner is responsible for any damages, losses, claims, expenses, insurance deductibles, increased insurance premiums, and any other costs actually incurred by the Association that arise from or relate to the negligence of, or a violation of the Declaration, Bylaws, or these Rules by, the Unit Owner or the Unit Owner's Residents, Visitors, agents, vendors, or contractors.

(b) **Association and Insurance Payments.** If the Association and/or any insurance carrier makes payment relating to such damages, losses, claims, expenses, or costs, the Unit Owner shall reimburse the Association and/or the paying insurance carrier for the actual amount paid, including any deductible, uninsured portion, and any insurer- or Association-incurred costs attributable to increased premiums or coverage impacts.

(c) **Special Assessment.** All amounts due under this section may be specially assessed against the Unit Owner's Unit and collected as an assessment.

(d) **Fines are Separate.** Any fine imposed for a violation is separate from and in addition to any special assessment or reimbursement obligation imposed under this section for damages or other costs actually incurred by the Association.

Establishing Collection Escalation Threshold Amount (Effective March 15, 2026)

WHEREAS, Pineridge Condominiums, Inc. (the "Association") is governed by its Declaration, Articles of Incorporation, and Bylaws, and the Board of Directors (the "Board") is authorized to administer the Association's assessment, collection, and enforcement processes as permitted by the governing documents and applicable law; and

WHEREAS, the Association's current Rules and Regulations provide that the Board will proceed with referring a delinquent Unit Owner's account to the Association's collection attorney in order to place a Condominium Lien against a Unit when the delinquent Unit Owner meets one of the following conditions: (i) a delinquent balance of at least $100.00 outstanding for at least ninety (90) days, or (ii) a delinquent balance of at least $500.00 outstanding for at least thirty (30) days; and

WHEREAS, the Board has adopted amended and restated Rules and Regulations to become effective March 15, 2026 (the "2026 Rules"), which provide in Section 19.02(b) that an account shall be reviewed for collections referral when: (1) the delinquent balance remains unpaid for ninety (90) days or more; or (2) a Unit Owner defaults on a Board approved payment plan; or (3) the delinquent balance exceeds an amount determined by Board resolution; or (4) repeated attempts to obtain voluntary payment have failed; and

WHEREAS, the Board desires to establish, by resolution, the dollar amount referenced in Section 19.02(b)(3) to maintain continuity with the Association's existing collection escalation threshold;

BE IT FURTHER RESOLVED that the Board affirms that this Resolution is intended to preserve continuity with the Association's prior collection escalation criteria, including the prior practice of escalating delinquent accounts to the Association's collection attorney when either (a) the

delinquent balance has been outstanding for at least ninety (90) days, or (b) the delinquent balance is at least $500.00 and has been outstanding for at least thirty (30) days, as applicable.

BE IT FURTHER RESOLVED that nothing in this Resolution limits the Board's discretion under Section 19.02(b) of the 2026 Rules to review an account for collections referral based on any of the other triggers set forth in Section 19.02(b), including default on a Board approved payment plan or repeated failed attempts to obtain voluntary payment.

BE IT FURTHER RESOLVED that the Board directs the Secretary (or designee) and the Association's management company to include this Resolution in the Association's official records and implement the Collections Threshold Amount within the Association's accounting and collections procedures effective March 15, 2026.
