

January 9, 2023

Regarding: 1) **Verification of Percolation Test Results** APN: 924-230-043
41425 Via Del Toronjo, Temecula, Riverside County, California
Project Number: 4947P

Mr. Tinnin:

We have completed the fieldwork and testing of the subject site on January 9, 2023.

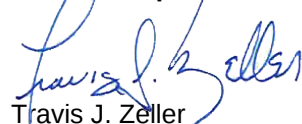

The test procedures and exploratory excavation performed meet the minimum requirements of the Riverside County Health Department (RCHD) Local Agency Management Program (LAMP, 2016) for On-Site Wastewater Treatment Systems (OWTS).

As such, the percolation tests performed were successful for the intended purpose of installing an OWTS at the subject property for residential purposes.

While the testing meets the minimum requirement for the RCHD, the contract with EnGEN Corporation (EnGEN) does not include a formal report for submittal to oversight agencies. EnGEN can provide these services for an additional fee.

Thank you for the opportunity to provide these services. If you should have any questions regarding our findings, please contact this office at your convenience.

Respectfully submitted,
EnGEN Corporation

Travis J. Zeller
