CUSTOMER

Bid to: Riley Wolf
Project: 5709 Middle Libby Rd
Bid Date: 9/26/2024

BID SCOPE OF WORK:

Problem

The tank needs new outlet plumbing, J Box, SR10 control Panel, wiring, shielding around transport line, new flush out valves and piezometers.

Budget for repair \$8,782.00 including Town of Paradise repair permit

BID EXCLUSIONS:

Unless explicitly included under paragraph 2 (Bid Scope of Work) above, the following items of work are expressly excluded under this Proposal:

- A. Permits, permit fees, bond, or bond fees, and/or approvals required by any local, state, or federal agency or department. (unless specified above) Town of Paradise Grading Permit.
- B. Asphalt patching.
- C. More than one mobilization of the project by Roethler General Engineering (RGE).
- D. Potholing, pre-excavation testing or locating, relocation of utilities or other obstructions, or the coordination of RGE's work with any other person, persons, entity, or entities including, without limitation, utility companies.
- E. The removal and/or disposal of hazardous materials and/or substances and/or products including, but not limited to, asbestos, lead, petroleum and/or hydrocarbon substances, and/or products and/or materials which contain asbestos, lead, petroleum and/or hydrocarbon substances.
- F. **Any clearing, grubbing, landscape repair or replacement, sprinkler repair or replacement, concrete repair, or replacement, and/or tree removal (unless otherwise stated in the above Scope of Work).**
- G. Staking, compaction testing, inspections, engineering, erosion control, or SWPPP preparation, controls, or implementation.
- H. Design, engineering, and testing.
- I. Excavation, blasting, removal, or off-haul of any rock or other materials that cannot be reasonably excavated, in RGE's sole discretion, with a standard backhoe.
- J. Trench or excavation dewatering.
- K. Any work not specified in this Proposal or expressly incorporated by reference in a duly signed extra work order or contract change order.
- L. Unusable trench spoils are to be deposited at the trench side.
- M. RGE will not be held responsible for any unmarked utilities. Any repairs will be an additional cost.
- N. This Proposal is based on the use of native materials for the excavation's backfill and does not include the import of backfill materials. If the native materials are not suitable for backfill, the purchase and importation of materials suitable for backfill shall be paid for by the Contracting Party.
- O. No work shall be performed in wet or unfavorable conditions.
- P. **This Proposal is for a standard gravity system, contingent on the final plans accepted by the Town of Paradise or Butte County Environmental Health. * (Does not include pressure dosed or engineered systems where required)**

To accept this Proposal, please sign, date, and return it to us. _____
