

# Onsite Waste Water System Inspection Report

Home Owner: \_\_\_\_\_

Site address: \_\_\_\_\_

## A. Tank Information

### 1. Tank Material

- Concrete
- Fiberglass
- Steel
- Polyurethane
- Other \_\_\_\_\_

### 2. Estimated Capacity of Septic Tank or Cesspool: \_\_\_\_\_ gallons

### 3. Internal Dimensions of Septic Tank:

Length \_\_\_\_\_ Width \_\_\_\_\_ Depth \_\_\_\_\_ (In feet)

### 4. Does the tank has a visible riser?

- Yes
- No

If yes, what size? Inlet \_\_\_\_\_ Inches Outlet \_\_\_\_\_ Inches

If no, how deep in feet? Inlet \_\_\_\_\_ Outlet \_\_\_\_\_

### 5. Estimated depth of tank: \_\_\_\_\_ feet

If the tank is in a driveway or under concrete, is the tank traffic rated?

- Yes
- No
- Unknown
- Not applicable

### 6. Is the inlet tee present and functional?

- Yes
- No
- Not visible

### 7. Is the outlet tee present and functional?

- Yes
- No
- Not visible

### 8. Are there two compartments?

- Yes
- No

### 9. Is there any visible damage or deterioration to the tank structure?

- Yes
- No
- Slight

If yes or slight briefly explain \_\_\_\_\_

### 10. Is there any visible damage or deterioration to the baffle wall?

- Yes
- No
- Slight

If yes or slight briefly explain \_\_\_\_\_

### 11. When was the tank pumped prior to inspection?

- \_\_\_\_\_ per customer
- Never
- Unknown

**B. Absorption Field Information****1. Prior to pumping, what was the liquid level in the tank?**

- Normal  
 Above normal  
 Below normal

**2. While pumping the tank, was there an effluent flow back into the tank from the absorption field?**

- Yes  
 No

If yes or slight briefly explain \_\_\_\_\_

**3. Is there any visible indication of previous failure?**

- Yes  
 No

If yes or slight briefly explain \_\_\_\_\_

**4. Is there any visible unusual green or lush vegetation in absorption field area?**

- Yes  
 No

**5. How many people are currently occupying the dwelling?**

- \_\_\_\_\_ people, per customer  
 Vacant  
 Unknown

**6. Was a water test conducted on the absorption field for at least 30 minutes?**

- Yes  
 No  
 No water available

**7. Did the system back up during the 30 minutes water test?**

- Yes  
 No  
 Not applicable

**C. Additional comment and/or recommendations:**

---

---

---

**D. Company Disclaimer**

Septic systems are subterranean, therefore it is impossible to determine their overall condition. Also, when no water had been entering the system, i.e., if the house has been vacant, a determination of their status is difficult. No prediction can be made as to when or if the system may fail.

**This report comments on the workability of the system on the day of the inspection only, and is no way intended to be a warranty or guarantee.** Workability of the systems can be altered by many factors such as heavy water usage, excessive rainfall, faulty plumbing, neglect, or physical damage to the system. All septic systems require pumping maintenance.

**Date of inspection:** \_\_\_\_\_**Inspecting company:** \_\_\_\_\_**Advanced Sanitation****PO Box 3445****Camarillo CA 93011****805-484-3282****Phone number:** \_\_\_\_\_**Inspector:** \_\_\_\_\_*Seth Miller*
