WHAT IS THE SOLAR ELECTRICITY SYSTEM?

We will install a solar electricity system on your home (the "System"). We will own the System and provide you with the electricity. The System will include:

Solar Panels (convert sunlight to electricity): manufactured by LONGi Green Energy Technology Co Ltd, or similar.

Inverter(s) (convert DC electricity to AC electricity): manufactured by SolarEdge Technologies, or similar.

Associated racking, wiring, and electrical equipment (junction boxes, etc.)

The specific make and model of the equipment will be available in your MySunrun app.

up to 12 months of past utility bills OR your home's square footage payments you may have made to that estimate (for example, if you are planning electric appliances to your home). There are a few important things you should know about the System and its energy production:

System's annual production estimates ("Estimated Production") are listed in Exhibit A.

System was designed to meet your Estimated Future Usage and is based on information you provided to us. If you use more electricity than your Estimated Future Usage, then you may need to buy more electricity from your utility.

System will produce more electricity on sunny days and in the summer months. It will produce less energy on cloudy or rainy days, during the winter months and it will produce less electricity if panels are in the shade, dirty, or, covered in snow or leaves.

Available, you agree to take service from your utility's standard net energy metering service ("NEM Service") for the term of this Agreement. NEM Service provides you credits (which vary by utility) toward your utility bill for electricity that the System produces but that you don't use at your house or store (if applicable) in the Battery, and may also include benefits for Sunrun. If your utility no longer offers NEM Service, you agree to use a substitute metering program as chosen by us at our sole discretion. To help you sign up for NEM Service, we may ask you to give us certain documents. If we don't receive the documents within seven (7) days of our request, we may charge you for any benefits that Sunrun lost because we didn't receive them.

If you do not sign up for NEM Service, your estimated savings are no longer valid. Please note that NEM Service is a utility program that may change at any time, even after you sign this Agreement, which could affect your estimated savings throughout the term of this Agreement.

In the case of a utility power outage, the System will NOT provide backup power to your home unless the System includes a Battery. If the system includes a Battery, backup power will be provided as explained further on in this agreement.

WHAT IS THE TERM OF THIS AGREEMENT?

You agree to pay for the solar electricity created by the System for 25 years. The Initial Term begins on the date the System is activated (the "Activation Date"), which requires permission from your utility, and ends 25 years after the Activation Date (the "Initial Term"). This Agreement may be terminated, cancelled, or otherwise terminated. Your termination options are explained in Exhibit B.

WHAT ARE MY COSTS AND WHEN WILL I RECEIVE MY BILL?

You can expect to receive your first monthly bill 30-40 days after your Activation Date. We will help you calculate your monthly bill:

Based on the System size, Estimated Production, and the product you selected, your monthly bill will be \$203.72 per month (plus applicable taxes and shall increase by 3.5% each subsequent year).

If you pay by automated electronic check (ACH) in a given month, your payment for that month will be discounted by \$7.50. **Each month you'll pay a discounted price of \$203.72 per month if you pay via ACH, or \$211.22 per month without ACH.**

the day before the next billing cycle begins. If you don't pay your bill on time, we can shut down the System, Reprogram the System, send you to collections, and/or flag non-payment on your credit report. We may charge you a late fee equal to the greater of (a) \$25 or (b) one and a half (1.5%) percent per month on the portion of your balance that is more than thirty (30) days past due; the maximum amount permitted under applicable law. This late fee is not an interest charge, finance charge, or time price difference.

You can pay via ACH, online, via your MySunrun app, mail us a check, or pay by phone. If you choose to pay by phone, we will provide you with payment options. There is a returned check fee of \$25. You can call 1-855-478-6786 to pay by phone, or mail us a check at the following address: Sunrun Inc. P.O. Box 511612 Los Angeles, CA 90051-8167

At any time, you may prepay all of the Monthly Payments during the remaining portion of the Initial Term ("Prepayment"). Prepayment equals the remaining Monthly Payments for the current and remaining years of the Initial Term discounted by the applicable interest rate: (x) the prime rate plus 100 basis points (as published by the Wall Street Journal); or (y) 5.0%. Sunrun's obligations under this Agreement will not change if you make such a Prepayment. Sunrun customer service can calculate and provide you the Prepayment amount at any time after the Activation Date.

Sunrun reserves the right to update our billing systems from time to time and will notify you if your Monthly Payment due date or payment options change accordingly.

If you have billing questions, please contact our Customer Care department at 1-855-478-6786.

If the System design changes after our site audit, your Upfront Payment may change. If this happens, we will proceed as described in the "Home Upgrades" section below, which would require your consent.

The Upfront Payment is payable to "Sunrun Installation Services, Inc." by money order, or a check drawn on a United States bank account.

All deposits are stored in a Sunrun Inc. general account and, if applicable, funds are returned directly from that account.

You don't own the System and it is not a permanent part of your home.

You cannot sell, transfer, or dispose of the System in any way, because it belongs to Sunrun.

You cannot assign any financial or legal obligation onto the System because you don't own it, including but not limited to security interests, claims, mortgages, or deeds of trust.

Sunrun will not file a lien on your home with the exception of a mechanic's lien. A mechanic's lien may be used by Sunrun or its contractors or subcontractors if you don't pay for goods or services pursuant to this agreement, or if Sunrun does not have a contractor. We will remove any lien within 30 days from the date that we receive satisfactory payment and/or we will remove any liens placed on your home by one of our subcontractors.

Sunrun does reserve the right to file a UCC Financing Statement on your home for this System, which would not be a lien; rather, it would allow us to assert our legal ownership of the system if necessary.

WHAT HAPPENS TO THE SOLAR INCENTIVES?

Your System may be eligible for certain incentives, benefits, or credits (defined below) and we will include the value of those incentives in the price we charge you. You agree to coordinate with Sunrun so that Sunrun receives System benefits since Sunrun owns the System.

If you purchase the System from Sunrun, you'll own and be entitled to proceeds from any Incentives earned after the System is installed. If you lease the System from Sunrun.

WHAT THE SYSTEM BE DESIGNED AND INSTALLED?

At the start of the installation process, we'll survey your home and provide you with a design to review. After you approve the design, we'll apply for necessary permits for the System, facilitate a final inspection, request permission from your utility to connect the System on, and we'll help you to activate the System. Here are the key details about the process:

After you approve the System design, you'll have five (5) business days to request a design change. If you don't request a change within five (5) business days, you'll be deemed to have approved the design. Sunrun will use commercially reasonable efforts to accommodate changes to the design. Once we receive your written, deemed, or verbal approval, installation may begin.

Potential for Home Upgrades

After we survey your home, we may find that your home requires additional work or upgrades to make it suitable for the System. For example, your main electrical panel may need to be upgraded to be able to handle the additional power from the System. Your roof may need to be changed to withstand the System's weight. If your home needs Home Upgrades, we'll provide you with a list of the upgrades. You are responsible for the cost of any Home Upgrades; Sunrun cannot move forward with the installation, and may terminate this Agreement if you don't agree to Home Upgrades required to make your home suitable for solar. If you choose to move forward with the Home Upgrades, we'll all sign updated documentation that will be incorporated into this Agreement.

If you request a modification to the terms of the Agreement, Sunrun will notify you in writing of the requested change and will execute the modified terms by executing a Change Order. Failure to respond to a Change Order request within five (5) business days will constitute a termination or cancellation of the Agreement.

Our subcontractors will apply for the permits necessary for the installation of the System. Certain jurisdictions may require your signatures and/or permissions to apply for a permit. You agree to assist us in obtaining any permits or other documentation required to install the System. If required for your home, it is your obligation to secure HOA approval to install the System.

We'll provide you with an installation date with you in advance. We'll install the System using our qualified and licensed employees or subcontractors. We'll ensure compliance with all local requirements. It generally takes one (1) day or less to install the System, but factors like weather, delays created by local permitting authorities may slow things down.

After we install the System, we'll work with your municipality to complete a final inspection.

ALLOWED TO LET YOU KNOW IT'S TIME TO TURN IT ON UNTIL THE UTILITY HAS GIVEN PERMISSION TO OPERATE. NO SUNRUN WILL BE RESPONSIBLE FOR ANY COSTS OR DAMAGE RELATING TO YOUR PREMATURE ACTIVATION OF THE EQUIPMENT.

Contractors

At our discretion, we may use subcontractors to perform or assist us in designing, permitting, installing, or maintaining the System. If we use subcontractors to install the System, we'll provide you with their names and license numbers upon request.

WHAT I DO AFTER I SIGN THIS AGREEMENT?

We must give our employees and subcontractors, and your local permitting inspectors, access to your home, including your roof, your property on the sides of your home, and your garage. Access is needed to perform surveys, install the System, and perform repairs and maintenance. We will give you reasonable notice when we need to access the home and will attempt to access the home during normal business hours.

You must provide us with power and water for use during installation of the System.

As an additional charge, if we deem it necessary or at your request, you agree to give us the right to install an animal guard around the System. This guard will protect the System from pests or rodents that could damage components of the System.

You agree that we can install energy production and consumption monitors on your home. These help us monitor your System's performance. You'll be responsible for any damage to the production monitor or consumption monitor that is caused by any other person unrelated to Sunrun.

We will give us access to the data that is required to monitor the System, including your solar and Utility meter data and your System's performance data. You agree to allow us to combine information (such as your name and address) with the System performance data (the "Data") so that we can properly monitor and maintain the System. You agree to allow us to transfer the Data to third parties, including the Solar Rights Alliance and Solar United Neighbors. We'll never sell any personally identifiable information without your express consent, and we agree to abide by our Privacy Policy, which is subject to change.

You agree to maintain an internet connection, which is required for Sunrun to collect the data from the System. If your internet connection is dormant for more than 90 consecutive days, the Performance Guarantee (defined below) in this Agreement will be suspended during the applicable two-year period because we won't have the ability to monitor the System's performance.

You agree that your home will remain connected to your Utility for the Initial Term and any Renewal Terms, and that you will notify Sunrun prior to changing your Utility.

You agree that the System will be used primarily for household purposes and not to heat a swimming pool.

You agree to keep the System clear of any obstructions that will impact the System's production of energy. Obstructions will impact the System's performance and will thus void the Performance Guarantee, and we will not compensate you for any lost energy production resulting from the obstructions.

You agree to trim trees and other foliage, or remove anything else that could block the System.

You agree not to add obstructions to your roof, such as a new fireplace or air conditioning vent, that will block the System's production of energy. We will not compensate you for any lost energy production resulting from the obstructions.

You understand that dust or other soiling of panels can reduce the System's performance and you agree to safely hose down the panels as needed.

Sunrun will not compensate you for underperformance due to dirty panels or obstructions described above.

You must NOT tamper with the System. Doing so will void the warranty and service obligations and could result in injury or damage.

system, they will become part of the System and shall be Sunrun's sole property.

agree to carry insurance covering damage to your Home, including damage resulting from the System and not due to negligence of Sunrun. It is your responsibility to determine whether installation of the System will impact your existing coverage. Additional insurance is required.

If you need the System to be physically removed for any reason, you must arrange removal with Sunrun or a contractor that you hire to perform the work. You can have the System removed and reinstalled at your current home, but you can't re-install the System on a different home. Sunrun's cost of System removal and reinstallation will be adjusted periodically based on market conditions. You will be charged the current cost for System removal and reinstallation at the time you need the work done. To ensure that all parties involved are protected, you agree that any pre-approved contractor must carry a commercial general liability insurance policy of one million (\$1,000,000) dollars or more per occurrence and name "Sunrun Installation Services LLC" as additional insureds or assigns", as additional insureds. Having a pre-approved contractor remove and/or reinstall the System will require the removal of our solar roof fasteners, and therefore voids the Solar Roof Fastener warranty and we won't assume any liability for damage to your roof.

WILL SUNRUN CONTACT ME?

You agree to allow Sunrun, or one of our affiliates, to call and/or text you about the System, including for installation and service at the phone number you have provided, even if you are on a national or state "Do Not Call" list. Calls may be sent using an automatic telephone dialing system. Messaging and data rates may apply.

You also agree that Sunrun or its affiliates may call and/or text you about new products and services that may be available or for other marketing services, even if you're on a national or state "Do Not Call" list.

Agreeing to be contacted by phone is optional. If you do agree, you may opt out at a later date.

THE SUNRUN'S OBLIGATIONS TO ME ONCE THE SYSTEM HAS BEEN INSTALLED?

Sunrun will keep the System up and running and in material compliance with all applicable laws and regulations, provided that you're not in default of the Agreement. Most of our obligations to you take the form of a limited warranty, as described below. Please note that this Agreement contains no express or implied warranties not in this Agreement and this Agreement shall be the sole and only word on our warranty obligations.

Sunrun provides comprehensive insurance for the System and its installation, which includes: (1) damage to and theft of the System and its components.

thogens, or from shrinking or cracking of grout and caulking. You acknowledge that installing the System on your current roof warranty and that Sunrun assumes no responsibility if our work does so.

Guarantee

Guarantee that the System will produce at least 90% of the estimated production over its lifetime. If the System produces less than 90% of the estimated production, we'll pay you for the difference at an agreed upon rate per kWh (see Exhibit A). We will audit the System's performance annually. We will automatically issue you a refund for the amount of energy not produced if the System's cumulative lifetime production is less than 90% of the estimated production. Past underproduction payments will be credited toward future payments; we won't double pay you for underproduction. **If the System performs more than expected in any given year, we won't charge you for it. However, we won't credit you for that overproduction towards the Performance Guarantee calculation.**

An illustrative example of how the Performance Guarantee calculation works is as follows: If we expect 20,000kWh over the term of the contract, the Performance Guarantee level will be 18,000kWh (20,000 kWh multiplied by 90%). If the System produces less than 18,000kWh, there is no payout. If the System produces 17,000kWh, you'll be paid for 1,000kWh (18,000kWh guaranteed minus 17,000kWh actual performance). If the payout was \$0.10/kWh, you would be paid \$100 (1,000kWh multiplied by \$0.10/kWh). After 25 years of the Agreement, the Performance Guarantee will be calculated over the last 12 months (vs. the last 24 months). At that point, there would only be 12 months left in the Initial Term since the last Performance Guarantee calculation.

We won't pay the Performance Guarantee from underproduction that results from your failure to comply with your obligations under this Agreement, if there is a grid outage that disables the System, if you cause or request the System to be removed (for example, if you request the System to be removed and reinstalled) or from damage caused by foreign objects (such as hail or falling trees).

The Performance Guarantee is the sole obligation we have, and the sole representation we make, regarding actual and estimated System performance.

In addition to the Performance Guarantee provided above, we offer a 25-year limited workmanship warranty, which protects you against any material defects in the installation of the System. During the Initial Term we'll, at our expense, repair or replace any material errors related to the installation of the System. Our workmanship warranty does not cover normal wear and tear, cosmetic issues (fading of paints and finishes), or damage resulting from mold, fungus, or shrinking and/or cracking of grout and caulking on the roof of your home.

Warranty

We will provide any replacement parts, either new or refurbished, to keep the System in working order for the Initial Term of the Agreement and subsequent renewal terms. Since equipment and technology change over time, we reserve the right to replace the System with a functional equivalent, or better, when it breaks. Any replacement equipment will not reduce the guaranteed kWh production of the System.

In addition to the cost of the replacement parts, we'll perform any labor necessary to repair the System, as required by this Agreement, for the Initial Term.

NOTE: We don't repair, replace, or paint over equipment related to the System for cosmetic reasons, except in specific circumstances where HOAs require it.

our warranty or service obligations under this Agreement are null and void in the following circumstances:

any other party, including but not limited to another contractor or you, performs work on the System without express permission from Sunrun, or otherwise damages the System.

any act of God, including but not limited to a hurricane, tornado or snowstorm, or fire, flood, war, or terrorism.

Note: We do cover damage stemming from hail storms.

Sunrun reserves the right to charge you for services performed due to fire, flood, war, terrorism, or acts of God, including but not limited to removing and reinstalling the System for roof repairs due to weather.

If an act of God, fire, flood, war, or terrorism destroys the system, your obligations, if any, become null and void.

any foreign objects have damaged the System, such as golf balls.

GENERATORS

If you have a generator prior to the installation of the Equipment, you agree to keep the generator on a separate Transfer Switch. If this is not possible at the time of installation, we may request additional work to your home or the generator. After installation, you agree to the following: (1) not to alter the configuration of the generator and/or relocate it from the separate Transfer Switch, (2) not to install or use any additional generators or other technologies for the generation of electricity to your home, and (3) not to install technologies to provide grid services, because these devices could interfere with the operation of the System. This provision will (a) render you liable for any damages to the System, the generator, and your home, and (b) void your warranty and service obligations under this agreement. At this time, you are prohibited from adding a generator after the System is installed. If you violate this Agreement by adding a generator after the System is installed, (a) you will be responsible for any damages to the System, related batter(ies), if any, and any wiring or appliances in the home, and (b) Sunrun's warranty and service obligations under this agreement will be voided.

intend to purchase the System, you must notify us in writing within 60 days of any of the events above, and pay for the System within 30 days of receiving an invoice from Sunrun for the purchase price.

Purchase Price will be the Fair Market Value ("FMV") of the System as determined by an independent appraiser, and will be based on the value of similar, in-service systems in your state and utility. The FMV will take into account the System's age, location, and current market conditions including equipment, current and future energy prices, and estimated operations and maintenance costs. If the System is purchased prior to the fifth (5th) anniversary of the Activation Date, the FMV will include the value of any federal tax credits.

After you purchase the System from Sunrun, you will be solely responsible for monitoring and maintaining it, unless you enter into a separate agreement with Sunrun to perform these services at your expense.

PENDS AT THE END OF THE INITIAL TERM OF THIS AGREEMENT?

PLEASE REVIEW THIS SECTION CAREFULLY

Sunrun will give you 90 days notice of this Agreement term end and your end of Agreement options, including the cost of renewing or purchasing the System. **If you don't give us written notice indicating what you want to do, when you choose 30 days before your Agreement terminates, we'll automatically renew your Agreement for 5 years.**

Renewal of Solar System. The solar portion of this Agreement will be renewed at a 10% discount to the prevailing rate of your local utility and increase 3% every 12 months.

Event of default. If you're in default of this Agreement at the end of the term, or if we foresee other issues with extending the Agreement another 5 years, we will NOT automatically renew your contract. After the initial 5 year renewal period, any subsequent renewals will carry a 3% price increase every 12 months.

End of term options. The notice we send you before the end of your Agreement term will include your end of term options: (1) renewing your Agreement; (2) purchasing the System; or (3) asking us to remove the System at no additional charge. If you sell your home, refinance, or if your home is foreclosed on, we'll work with you and the buyer, lender, and others involved in the situation. Our mutual obligations and rights in these situations are outlined below:

Transfer of your home: If you sell your Home, you may transfer all rights and obligations under the Agreement to the new owner, provided that the new owner (a) meets Sunrun's credit requirements of a FICO score of 650 or higher; and (b) agrees to assume the Agreement.

If the new owner doesn't meet Sunrun's credit requirements, they can still assume the Agreement if either of the following apply: (1) they qualify for a mortgage to purchase the Home or purchase the Home in cash; (2) payment to Sunrun of a \$250.00 credit check exemption fee, by either you or the new owner.

If the new homeowner does not agree to assume the Agreement, or if they don't qualify based on any of the above conditions, you are required to purchase the System.

Refinancing: If you refinance your home, we'll provide reasonable cooperation at no cost to you, including completing paperwork and documents to the Agreement as reasonably required by your lender.

Foreclosure: If your home is foreclosed on, you are in default of this Agreement and the Agreement will automatically terminate. In this scenario, we'll have the right to remove the System without notice or ask you to purchase the System. If another entity acquires possession of your home, they will have the option to request that we remove the System within 90 days of when they acquire possession of your property, assume the terms of this Agreement or renegotiate this Agreement on materially equivalent terms. For all property financed by a Fannie Mae loan, FHFA guidelines require, and you and Sunrun (as applicable) agree, that the Home will remain connected to your Utility for the Initial Term and any Renewal Terms. Sunrun agrees not

By entering this agreement, you waive your right to bring a class action lawsuit against SaaS Partners. You agree to settle any legal disagreements confidentially via binding arbitration in the nearest AAA (arbitration services provider defined below) jurisdiction. The details of how this works are as follows:

Alternative to a court case. In arbitration, a third-party arbitrator ("TPA") resolves "Disputes" in a hearing. It is less formal than a court case.

different from court and jury trials?

Hearing is private. There is no jury. It is usually less formal, faster, and less expensive than a lawsuit. Pre-hearing discovery is limited. Appeals are limited. The arbitrator's findings are binding, and courts rarely overturn arbitration awards.

This governs all disputes that would usually be decided in court by a judge or jury (or any Related Party) and you, including without limitation all claims related to or arising out of this Agreement, the relationship with you ("Disputes"). Disputes include claims related to amendments, Disclosures, Change Orders, collections, performance, Information, claims related to the validity of this Agreement, AND THE ARBITRABILITY OF ANY DISPUTE(S). mechanics' liens and sue you in court to foreclose the lien. If a court finds the lien is valid, you could be forced to pay twice as much to pay your contractor in full, unpaid subcontractors, suppliers, and laborers who helped to improve your property. You may also be forced to sell your home to pay the lien. Liens can also affect your credit. To preserve their right to record a lien, each subcontractor and supplier must provide you with a document called a "20-day Preliminary Notice." This notice is not a lien. The purpose of the Preliminary Notice is to let you know that the person who sends you the notice has the right to record a lien on your property if he or she is not paid. The Preliminary Notice can be sent up to 20 days after the subcontractor starts work or the supplier provides materials. It is a problem if you pay your contractor before you have received the Preliminary Notices. You will not get Preliminary Notices from the contractor or from laborers who work on your project. The law assumes that you already know they are improving your property. **PROTECT YOURSELF FROM LIENS.** You can protect yourself from liens by getting a list from your contractor of all subcontractors and material suppliers that work on your project. Find out from your contractor when these subcontractors start work and when these suppliers delivered goods or materials. Then wait 20 days, paying attention to the Preliminary Notices you receive. **DO CHECKS.** One way to protect yourself is to pay with a joint check. When your contractor tells you it is time to pay for the work, the contractor or supplier who has provided you with a Preliminary Notice, write a joint check payable to both the contractor and the subcontractor or material supplier. For other ways to prevent liens, visit CSLB's Website at www.cslb.ca.gov or call CSLB at 800.321.2752. **IF YOU DO NOTHING, YOU RISK HAVING A LIEN PLACED ON YOUR HOME.** This can mean that you may have to pay for the forced sale of your home to pay what you owe. Pursuant to the terms of this Agreement, if you fail to make any payment to us, we may file a lien on your Property.

Lien Removal. Upon satisfactory payment being made for any portion of the work performed, we, prior to any further work, shall furnish to you a full and unconditional release from any potential lien claimant claim or mechanics lien claim pursuant to Section 8400 and 8404 of the California Civil Code for that portion of the work for which payment has been made.

Disclosure of Personal Information To Third Parties For Direct Marketing Purposes. You have the right to request and obtain from us, free of charge, information about any personal information we disclosed to third parties for direct marketing purposes during the preceding calendar year, in accordance with CA Civil Code § 1798.83. If you would like to make such a request, please submit your request to: Sunrun Installation Services, Inc., 225 Bush St, San Francisco, CA 94104.

Change Orders and Extra Work. Extra Work and Change Orders become part of the contract once the order is prepared and signed by the parties prior to the commencement of work covered by the new change order. The order must describe the nature of the work or change, the cost to be added or subtracted from the contract, and the effect the order will have on the schedule of payments. We are not required to perform additional work or changes without written approval in a "Change Order" before the work is started. Extra work or a Change Order is not enforceable against you as the buyer unless the Change Order also contains the following in writing prior to commencement of any work covered by such Change Order: (i) the scope of work encompassed by the Change Order; (ii) the amount to be added or subtracted from the Agreement; and (iii) the effect the order will make in the completion date. Our failure to comply with the requirements of this paragraph does not preclude the right of either party to seek redress for work performed based upon legal or equitable remedies designed to prevent unjust enrichment.

Pursuant to the terms of this Agreement, the initial design and installation of the System shall be done at our sole cost and expense. This provision does not apply to such work.

Contact CSLB for information about the licensed contractor you are considering, including information about any licensable complaints, disciplinary actions, and civil judgments that are reported to CSLB. If you are not a licensed contractor, CSLB may not be able to help you resolve your complaint. Your only remedy may be in civil court. I hereby ask Sunrun to oversize my system to offset 158% of my past year's estimate electric usage given my current needs.

State the reason for oversizing (required):

(e.g., adding an electric vehicle, moving into a vacation home full-time, etc.)

SYSTEM DISCLOSURE

I am requesting that Sunrun oversize your system to accommodate an anticipated increase in your yearly electrical service needs as stated below.

My current estimated consumption is kilowatt-hours per year. This Solar Facility is sized at an estimated production of 11,640 kilowatt-hours per year. As such, you will be purchasing 158% more energy than what we estimate you currently consume in one year.

I understand that below, you acknowledge that if your anticipated increase in energy service needs does not come to pass or if your consumption decreases for any other reason:

I may be paying for power that you do not use and/or for which you receive no other value (for example, if your utility does not provide net metering credits for production beyond your estimated consumption);

I may realize less savings than anticipated, or no savings at all;

I am still responsible for purchasing the estimated production of this Solar Facility for the term of the contract regardless of my actual future consumption; and

Sunrun will not provide you with any refunds, except as provided in the Agreement.

I hereby acknowledge that Sunrun is oversizing your system based on the representations regarding your anticipated electric services needs that you have specified above. Sunrun has no obligation to do any independent investigation of the accuracy or validity of my representations, and shall bear no responsibility or liability if your anticipated electric services needs do not come to pass, or if my consumption decreases, as set forth in the Agreement.

Sunrun reserves the right to reject any Agreement for an oversized system based on several factors, including but not limited to the following: my other concerns.

I hereby acknowledge that I would like to oversize my system and take responsibility for any potential benefit or risk associated with this decision.

CONSUMER DISCLOSURE

From time to time, Sunrun Inc. (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. PLEASE READ THE INFORMATION BELOW CAREFULLY AND THOROUGHLY, AND IF YOU CAN ACCESS THIS INFORMATION ELECTRONICALLY TO YOUR SATISFACTION AND AGREE TO THESE TERMS AND CONDITIONS, PLEASE CONFIRM YOUR AGREEMENT BY CLICKING THE 'I AGREE' BUTTON AT THE BOTTOM OF THIS DOCUMENT.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for thirty (30) days after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, please request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.
