ALL PARCELS SHALL HAVE A LAYOUT OF THE SEWAGE DISPOSAL SYSTEM, PROPOSED STRUCTURES, CUTS AND FILLS APPROVED BY THE SAN DIEGO DEPARTMENT OF PUBLIC HEALTH PRIOR TO THE APPROVAL OF THE BUILDING PERMIT AND/OR INSURANCE OF A SEPTIC TANK PERMIT. AN ADDITIONAL EXPANSION AREA OF 100% OF THE INITIAL TILE AREA SHALL BE PROVIDED BY GRAVITY FLOW FOR THE POTENTIAL EXPANSION IN THE EVENT OF FAILURE.

EACH PARCEL IS APPROVED FOR A STANDARD SEPTIC TANK CONNECTED TO 380 FEET OF TILE DRAIN FIELD TO SERVE A THREE-BEDROOM DWELLING: PROVIDED THE ORIGINAL SOIL IS NOT DISTURBED IN ANY WAY, SUCH AS CUTTING, FILLING OR RIPPING. THIS DOES NOT CONSTITUTE APPROVAL FOR COMMERCIAL ESTABLISHMENTS.

This is to certify that an adequate potable water supply will be available to serve each parcel upon extension of necessary facilities.

However, it may be necessary for the land divider to make financial arrangements with the appropriate agency to have service provided to each lot or parcel.

Date 7 Jun 77

HEALTH DEPARTMENT CERTIFICATE:

Each parcel is approved for a standard septic tank connected to _____ feet of tile drainfield to serve a three bedroom dwelling. Provided no extensive land cuts or fills are made. This does not constitute approval for commercial establishments.

Parcels _____ shall have a layout of the sewage disposal system approved by the San Diego Department of Public Health prior to the approval of a building permit and/or issuance of a septic tank permit. Cuts and fills for driveways and building sites shall be made prior to approval of layouts. An additional expansion area of 100% of the initial tile line area shall be provided for potential expansion in the event of failure by gravity flow.

Each parcel shall have an individual well approved by the Health Department prior to approval of a building permit and/or issuance of a septic tank permit. A layout showing the location of the sewage system and the well shall be approved prior to approval of layouts.
