[] Marginal [] Poor [] FAILURE

Comments: Tank inspected on vacant lot post Camp Fire. Low liquid level at half seam indicating tank is leaking, roots on side walls of tank, tank needs to be replaced. Absorption field tested Excellent.

This onsite wastewater treatment and disposal system evaluation report is a true and complete record of the onsite wastewater treatment and disposal system on the date of the evaluation. No warranty is given or implied regarding the remaining life of this system. I certify that this onsite wastewater treatment and disposal system evaluation report reflects conditions observed on the parcel (s) during the routine inspection of the onsite wastewater treatment and disposal system.

The diagram shows a large rectangular footprint of a house. A smaller rectangle is attached to the top right corner, with a vertical line extending upwards from its top center. Two curved lines extend from the bottom left corner of the main rectangle, curving outwards and then back inwards towards the bottom. The text 'Footprint of Previous Home' is centered within the main rectangle, and the word 'Driveway' is placed between the two curved lines.

Footprint of Previous Home

Driveway
