The High Desert

You will not find a more aggressive, customer-focused Economic Development Division anywhere. What's more, we look forward to proving it to you. We would like to welcome you into our community and hope you agree that when it comes to a location in southern California and the high desert, Hesperia abounds with amenities and affords your business tremendous opportunities.

At the hub of thriving economic activity is the Hesperia Commerce Center. Situated on the west side of the 1-15 freeway along Caliente Road, this expansive complex covers an impressive 3.5 million square feet, leased by Maersk, a global logistics and supply chain company, as occupants.

Amazon's first West Coast Middle-Mile facility has broken ground. Spanning across approximately 160 acres off Phelan Road, near Caliente Road, the 2.5 million-square-foot facility has generated roughly 1,000 construction-related positions, and is expected to create approximately 1,000 permanent jobs once the facility is operational, currently anticipated in late 2026. 500 docking stations are included in the build, supporting the Inland Empire and greater Southern California area.
