

**ADDENDUM FOR
PROPERTY LOCATED SEAWARD OF THE
GULF INTRACOASTAL WATERWAY**
(SECTION 61.025, TEXAS NATURAL RESOURCES CODE)

TO CONTRACT CONCERNING THE PROPERTY AT

1313 Galveston Avenue, Port Bolivar, TX 77650

(Address of Property)

**DISCLOSURE NOTICE CONCERNING LEGAL AND ECONOMIC RISKS OF PURCHASING
COASTAL REAL PROPERTY NEAR A BEACH**

WARNING: THE FOLLOWING NOTICE OF POTENTIAL RISKS OF ECONOMIC LOSS TO YOU AS THE PURCHASER OF COASTAL REAL PROPERTY IS REQUIRED BY STATE LAW.

- READ THIS NOTICE CAREFULLY. DO NOT SIGN THIS CONTRACT UNTIL YOU FULLY UNDERSTAND THE RISKS YOU ARE ASSUMING.
- BY PURCHASING THIS PROPERTY, YOU MAY BE ASSUMING ECONOMIC RISKS OVER AND ABOVE THE RISKS INVOLVED IN PURCHASING INLAND REAL PROPERTY.
- IF YOU OWN A STRUCTURE LOCATED ON COASTAL REAL PROPERTY NEAR A GULF COAST BEACH, IT MAY COME TO BE LOCATED ON THE PUBLIC BEACH BECAUSE OF COASTAL EROSION AND STORM EVENTS.
- AS THE OWNER OF A STRUCTURE LOCATED ON THE PUBLIC BEACH, YOU COULD BE SUED BY THE STATE OF TEXAS AND ORDERED TO REMOVE THE STRUCTURE.
- THE COSTS OF REMOVING A STRUCTURE FROM THE PUBLIC BEACH AND ANY OTHER ECONOMIC LOSS INCURRED BECAUSE OF A REMOVAL ORDER WOULD BE SOLELY YOUR RESPONSIBILITY.

The real property described in this contract is located seaward of the Gulf Intracoastal Waterway to its southernmost point and then seaward of the longitudinal line also known as 97 degrees, 12', 19" which runs southerly to the international boundary from the intersection of the centerline of the Gulf Intracoastal Waterway and the Brownsville Ship Channel. If the property is in close proximity to a beach fronting the Gulf of Mexico, the purchaser is hereby advised that the public has acquired a right of use or easement to or over the area of any public beach by prescription, dedication, or presumption, or has retained a right by virtue of continuous right in the public since time immemorial, as recognized in law and custom.

The extreme seaward boundary of natural vegetation that spreads continuously inland customarily marks the landward boundary of the public easement. If there is no clearly marked natural vegetation line, the landward boundary of the easement is as provided by Sections 61.016 and 61.017, Natural Resources Code.

Much of the Gulf of Mexico coastline is eroding at rates of more than five feet per year. Erosion rates for all Texas Gulf property subject to the open beaches act are available from the Texas General Land Office.

State law prohibits any obstruction, barrier, restraint, or interference with the use of the public easement, including the placement of structures seaward of the landward boundary of the easement. OWNERS OF STRUCTURES ERECTED SEAWARD OF THE VEGETATION LINE (OR OTHER APPLICABLE EASEMENT BOUNDARY) OR THAT BECOME SEAWARD OF THE VEGETATION LINE AS A RESULT OF PROCESSES SUCH AS SHORELINE EROSION ARE SUBJECT TO A LAWSUIT BY THE STATE OF TEXAS TO REMOVE THE STRUCTURES.

The purchaser is hereby notified that the purchaser should: (1) determine the rate of shoreline erosion in the vicinity of the real property; and (2) seek the advice of an attorney or other qualified person before executing this contract or instrument of conveyance as to the relevance of these statutes and facts to the value of the property the purchaser is hereby purchasing or contracting to purchase.

**ADDENDUM FOR
COASTAL AREA PROPERTY**
(SECTION 33.135, TEXAS NATURAL RESOURCES CODE)

TO CONTRACT CONCERNING THE PROPERTY AT

1313 Galveston Avenue, Port Bolivar, TX 77650

(Address of Property)

NOTICE REGARDING COASTAL AREA PROPERTY

1. The real property described in and subject to this contract adjoins and shares a common boundary with the tidally influenced submerged lands of the state. The boundary is subject to change and can be determined accurately only by a survey on the ground made by a licensed state land surveyor in accordance with the original grant from the sovereign. The owner of the property described in this contract may gain or lose portions of the tract because of changes in the boundary.
2. The seller, transferor, or grantor has no knowledge of any prior fill as it relates to the property described in and subject to this contract except: _____
3. State law prohibits the use, encumbrance, construction, or placing of any structure in, on, or over state-owned submerged lands below the applicable tide line, without proper permission.
4. The purchaser or grantee is hereby advised to seek the advice of an attorney or other qualified person as to the legal nature and effect of the facts set forth in this notice on the property described in and subject to this contract. Information regarding the location of the applicable tide line as to the property described in and subject to this contract may be obtained from the surveying division of the General Land Office in Austin.

**ENVIRONMENTAL ASSESSMENT, THREATENED OR
ENDANGERED SPECIES, AND WETLANDS ADDENDUM****TO CONTRACT CONCERNING THE PROPERTY AT**

1313 Galveston Avenue, Port Bolivar, TX 77650

(Address of Property)

- ☒ A. ENVIRONMENTAL ASSESSMENT: Buyer, at Buyer's expense, may obtain an environmental assessment report prepared by an environmental specialist.
- ☒ B. THREATENED OR ENDANGERED SPECIES: Buyer, at Buyer's expense, may obtain a report from a natural resources professional to determine if there are any threatened or endangered species or their habitats as defined by the Texas Parks and Wildlife Department or the U.S. Fish and Wildlife Service.
- ☒ C. WETLANDS: Buyer, at Buyer's expense, may obtain a report from an environmental specialist to determine if there are wetlands, as defined by federal or state law or regulation.

Within 10 ___ days after the effective date of the contract, Buyer may terminate the contract by furnishing Seller a copy of any report noted above that adversely affects the use of the Property and a notice of termination of the contract. Upon termination, the earnest money will be refunded to Buyer.

INFORMATION ABOUT SPECIAL FLOOD HAZARD AREAS

USE OF THIS FORM BY PERSONS WHO ARE NOT MEMBERS OF THE TEXAS ASSOCIATION OF REALTORS®, INC. IS NOT AUTHORIZED.
©Texas Association of REALTORS®, Inc., 2021

CONCERNING THE PROPERTY AT 1313 Galveston Avenue, Port Bolivar, TX 77650

A. FLOOD AREAS:

- (1) The Federal Emergency Management Agency (FEMA) designates areas that have a high risk of flooding as special flood hazard areas.
- (2) A property that is in a special flood hazard area is designated on flood insurance rate maps with a zone beginning in a "V" or "A". Both V-Zone and A-Zone areas indicate a high risk of flooding.
- (3) Some properties may also lie in the "floodway" which is the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge a flood under FEMA rules. Communities must regulate development in these floodways.

B. AVAILABILITY OF FLOOD INSURANCE:

- (1) Generally, flood insurance is available regardless of whether the property is located in or out of a special flood hazard area. Contact your insurance agent to determine if any limitations or restrictions apply to the property in which you are interested.
- (2) FEMA encourages every property owner to purchase flood insurance regardless of whether the property is in a high, moderate, or low risk flood area.
- (3) A homeowner may obtain flood insurance coverage (up to certain limits) through the National Flood Insurance Program. Supplemental coverage is available through private insurance carriers.
- (4) A mortgage lender making a federally related mortgage will require the borrower to maintain flood insurance if the property is in a special flood hazard area.

C. GROUND FLOOR REQUIREMENTS:

- (1) Many homes in special flood hazard areas are built-up or are elevated. In elevated homes the ground floor typically lies below the base flood elevation and the first floor is elevated on piers, columns, posts, or piles. The base flood elevation is the highest level at which a flood is likely to occur as shown on flood insurance rate maps.
- (2) Federal, state, county, and city regulations:
 - (a) restrict the use and construction of any ground floor enclosures in elevated homes that are in special flood hazard areas.
 - (b) may prohibit or restrict the remodeling, rebuilding, and redevelopment of property and improvements in the floodway.
- (3) The first floor of all homes must now be built above the base flood elevation.
 - (a) Older homes may have been built in compliance with applicable regulations at the time of construction and may have first floors that lie below the base flood elevation, but flood insurance rates for such homes may be significant.

- (b) It is possible that modifications were made to a ground floor enclosure after a home was first built. The modifications may or may not comply with applicable regulations and may or may not affect flood insurance rates.
- (c) It is important for a buyer to determine if the first floor of a home is elevated at or above the base flood elevation. It is also important for a buyer to determine if the property lies in a floodway.
- (4) Ground floor enclosures that lie below the base flood elevation may be used only for: (i) parking; (ii) storage; and (iii) building access. Plumbing, mechanical, or electrical items in ground floor enclosures that lie below the base flood elevation may be prohibited or restricted and may not be eligible for flood insurance coverage. Additionally:
 - (a) in A-Zones, the ground floor enclosures below the base flood elevation must have flow-through vents or openings that permit the automatic entry and exit of floodwaters:
 - (b) in V-Zones, the ground floor enclosures must have break-away walls, screening, or lattice walls; and
 - (c) in floodways, the remodeling or reconstruction of any improvements may be prohibited or otherwise restricted.

D. COMPLIANCE:

- (1) The above-referenced property may or may not comply with regulations affecting ground floor enclosures below the base flood elevation.
- (2) A property owner's eligibility to purchase or maintain flood insurance, as well as the cost of the flood insurance, is dependent on whether the property complies with the regulations affecting ground floor enclosures.
- (3) A purchaser or property owner may be required to remove or modify a ground floor enclosure that is not in compliance with city or county building requirements or is not entitled to an exemption from such requirements.
- (4) A flood insurance policy maintained by the current property owner does not mean that the property is in compliance with the regulations affecting ground floor enclosures or that the buyer will be able to continue to maintain flood insurance at the same rate.
- (5) Insurance carriers calculate the cost of flood insurance using a rate that is based on the elevation of the lowest floor.
 - (a) If the ground floor lies below the base flood elevation and does not meet federal, state, county, and city requirements, the ground floor will be the lowest floor for the purpose of computing the rate.
 - (b) If the property is in compliance, the first elevated floor will be the lowest floor and the insurance rate will be significantly less than the rate for a property that is not in compliance.
 - (c) If the property lies in a V-Zone the flood insurance rate will be impacted if a ground floor enclosure below the base flood elevation exceeds 299 square feet (even if constructed with break-away walls).

E. ELEVATION CERTIFICATE:

The elevation certificate is an important tool in determining flood insurance rates. It is used to provide elevation information that is necessary to ensure compliance with floodplain management laws. To determine the proper insurance premium rate, insurers rely on an elevation certificate to certify building elevations at an acceptable level above flood map levels. If available in your area, it is recommended that you obtain an elevation certificate for the property as soon as possible to accurately determine future flood insurance rates.

You are encouraged to: (1) inspect the property for all purposes, including compliance with any ground floor enclosure requirement; (2) review the flood insurance policy (costs and coverage) with your insurance agent; and (3) contact the building permitting authority if you have any questions about building requirements or compliance issues.
