are 50% LESS than a code-built home

The U.S. Department of Energy has determined that a typical resale home scores 130 on the HERS Index while a standard new home is awarded a rating of 100. Comparison based on the International Residential Code, Energy Star, and Tacoma Energy requirements. Calculations based on sample increments of \$0.1010 to 0.1290 kWh (Reliant) and \$0.0743 gas (CenterPoint). Estimated heating and cooling costs vary by plan elevation and/or option. Average energy/cost estimate sample shown. Please see New Home Consultant for details.
