

5800 Lumberdale #90, Houston, TX 77092

To Whom It May Concern:

5800 Lumberdale #90, Houston, TX 77092 is an existing complex of shared wall townhomes constructed in the 1970's. The monthly HOA fee covers all exterior maintenance. The property is fee-simple, but the HOA does not allow any exterior modifications or additions to the property. Since no modifications or additions are allowed, this means that a survey is an unnecessary expense. Because of this, I has chosen to not get a survey.
