

5110 West Oak Mews

Luxurious Smart Manor Prestigious West Oaks

Experience the pinnacle of refined living in this extraordinary Robert Dame-designed residence, meticulously built by Thompson Custom Homes and extensively enhanced with custom designer finishes. Set on a private cul-de-sac behind the secure gates of the exclusive West Oaks enclave, this 6,100-square-foot, fully gated estate masterfully blends timeless elegance, innovative technology, and resort-caliber amenities.

Designed for discerning buyers who value privacy, security, and effortless modern convenience, this turnkey smart manor offers a rare opportunity in Houston's esteemed Uptown area.

Property Overview

- Bedrooms: Versatile layout with 3-4 bedrooms, including a luxurious primary suite, two guest suites, and an additional bed/library.
- Bathrooms: 3.5 bathrooms, appointed with premium finishes for a spa-like experience.
- Living Area: Expansive three-level floor plan with seamless indoor-outdoor integration centered around a tranquil swimming pool and courtyard.

Exclusive Neighborhood

West Oaks is renowned as the Houston residence of President George H.W. Bush and family. This coveted, gated community offers unmatched prestige and privacy, ideally located between River Oaks and Tanglewood. Residents enjoy close proximity to the Galleria, River Oaks District, and Memorial Park—placing Houston's premier shopping, dining, and recreation just minutes away.

Interior Elegance & Layout

Enter through an impressive foyer and grand gallery, seamlessly connecting sophisticated living spaces that frame the serene pool courtyard with captivating water features. The open-concept design provides exceptional flow for both entertaining and daily living.

Luxurious Smart Manor Prestigious West Oaks

Primary Suite & Retreats

The opulent primary suite serves as a private sanctuary, featuring an oversized bedroom, wet bar with refrigerator and dishwasher, dedicated home office, custom walk-in closet corridor, and an indulgent spa-style bath. Highlights include dual vanities, a dual jet shower, enclosed water closet, adjacent utility room, and exquisite materials throughout.

Living & Entertaining Spaces

- State-of-the-art 8K home theater with digital surround sound and fiber-optic lighting for an immersive cinematic experience.
- Second-floor library or optional fourth bedroom; first-floor formal lounge or study, complete with a newly updated guest powder room.
- Elegant dining room, sophisticated butler's bar, wine cellar, breakfast area, and a spacious family room with fireplace—all featuring grand double French doors pening to the outdoor oasis.

Gourmet Kitchen

The chef's kitchen is equipped with professional-grade appliances, including dual ovens, dual flat tops, a six-burner cooktop, warming drawer, salamander broiler, and a high-capacity commercial range hood with built-in lighting. Additional features include a dual-drawer island refrigerator, dishwashers, a large Sub-Zero refrigerator, quartz countertops with informal seating, under-counter power outlets, and modern overhang lighting. Ample cabinetry and a walk-in pantry provide exceptional storage and functionality.

Butler's Bar & Wine Vault

A separate butler's bar, accessible from the kitchen, boasts a wine refrigerator, ice machine, dishwasher, sink, and illuminated glass cabinetry—perfect for entertaining. The adjacent wine cellar offers abundant storage for the most discerning collectors and is directly connected to the formal dining room for effortless service.

Outdoor Oasis

- Resort-style swimming pool with illuminated spa, waterfall, swim jets, fountain, heating, and automated water-level sensor.
- Covered loggia with a summer kitchen for al fresco dining and entertaining.
- New pergola featuring an automatic rain-sensor system for year-round comfort.

Smart Home Features & Advanced Amenities

Intelligent Home Automation

This move-in-ready home is outfitted with state-of-the-art smart systems accessible via mobile apps, voice commands, or a dedicated in-home iPad controller. Effortlessly manage lighting, climate, audio, security, and more from a centralized interface.

Comprehensive Security & Surveillance

- Robust alarm system with three panels (front door, kitchen, master bedroom), glass break sensors, and smoke/heat detectors for 24/7 peace of mind.
- Google Nest surveillance: Four high-definition cameras with floodlights (garage, street, back gate, front door) provide live monitoring, motion alerts, and remote access—fully integrated with Nest and Sonos for real-time notifications.

Smart Climate Control

Four-zone Google Nest climate controllers manage specific areas (kitchen/living, study/dining, master suite/media room/guest suite 1, theater/guest suite 2) for personalized comfort. Remote app-based adjustments and automated climate adaptations, including a main water valve for easy freeze protection, enhance efficiency and convenience.

Whole-Home Audio

Integrated Sonos system with eight Gen3 amplifiers allows multi-room streaming throughout the home and outdoor spaces, all easily controlled via app.
