NOTABLE FEATURES + UPGRADES

Rare 4-Car Garage – an exceptional and highly sought-after feature within Elyson

Full perimeter gutter system installed around the entire home, which helps protect the foundation and improve long-term drainage

Fully styled and designed by a professional interior designer, which really comes through in the overall look, flow, and finishes throughout

Aprilaire 5000 medical-grade whole-home air filtration system (high-efficiency filtration designed to capture very fine particles and significantly improve indoor air quality)

Whole-house ionizer integrated into the HVAC system to help reduce airborne particles and improve overall air cleanliness

During construction, all wood and structural lumber was treated with a professional-grade anti-microbial and mold-resistant solution (Sentinel Pro), adding an extra layer of long-term protection

REME LED UV lights installed within the HVAC ducts to help reduce bacteria, viruses, and other airborne contaminants
