

FOX RUN SETTLEMENT
FRSAACC

POLICY 3-7-2018

MAILBOX SPECIFICATIONS

Fox Run Settlement is located in a rural setting with privately maintained roads. Currently, these roads are gravel. Several times during the year, maintenance equipment such as road graders, compacting equipment, dump trucks, snow plows, and other equipment used to mow and maintain ditches are present. Therefore, the FRSAACC has specified sturdy, rugged, yet aesthetically pleasing Mail Box and Posts standards that are conducive to the Fox Run Settlement environment.

- 1) All Mail Boxes shall be installed at a height in compliance with the United States Postal Service (USPS) specifications.
- 2) Mail Box Posts shall be made of wood, preferably Cedar, and with a minimum post size of 8" x 8"
- 3) Mail Boxes shall be in compliance with USPS specifications, made of metal, and be painted black.
- 4) All Mail Box posts shall be equipped with a secondary box for newspapers or other non-USPS Mail deliveries.
- 5) Mail Boxes and Posts shall have a similar look to those existing in Fox Run Settlement in order to maintain the harmony of the association
- 6) Any request for Mail Boxes or Posts to be installed following the date of this specification must comply with these specifications.

The FRSAACC shall have the final determination if the proposed mail-box or post shall be allowed to be installed.
