RE: 9910 Corey Ln-Mequon- WI- Electrical Corrections Proposal.

1. Clean out all the debri and Mice in the bottom of the main electrical panel.
2. Alot of the wire in the panel was chewed by the mice.
3. Provide and install and splice new wire that was damaged inside of the main panel.
4. Provide and install different gage wire sizes needed inside of the panel.
5. Provide and install duct seal inside the main raceway pipe to keep mice out.
6. All electrical work performed adheres to today's electrical code.

Total job cost including materials and labor- $315.00.

Thank you,

Erik Mayr- Master Electrician and State Inspector.
