

The following rules will be adopted by the Westwind Greens Board of Directors:

Boat dimensions and location of boat slip

- No boat shall exceed a 25 foot, 10 inch LOA (Length Over All)
- Owners are only entitled to a shore station (boat lift) with inside dimensions of 108 inches
- The board grants a permanent exception to allow shore station with an inside dimension up to 120 inches for slips 1, 16, 17, and 18. (end locations)
- The board will allow one 108 and one 120 inch inside dimension shore station for locations between the pier fingers**. The opportunity for an owner to choose their lift inside dimension will be assigned on a first come first serve basis.
- If an owner wishes to install a larger 120 inch inside dimension lift, they must follow the boat slip trade procedure for a place that has room for a larger lift. If a trade is not available, then they will be limited to a 108-inch lift.

Note: ** *The spacing between the pier fingers will not allow for two 120 inch inside dimension shore stations.*

Transfer of Designated boat slip upon sale of a unit

- *If sale of a unit is due to divorce, death, or trust formation, the board will not seek to transfer the boat slip unless the selling owner agrees.*
- *Upon adoption of these rules, the board will establish a waiting list for owners requesting a change*
- *Once the list is established, a first come first serve order of priority will be honored for requests*
- *To establish the initial order of the list, the board will use*
 - *Length of time as an owner*
 - *Need (special considerations, such as, location of boat door, or width of shore station)*

Configuration of boat slips as of May 2026

Inside			
	Slip	Width	Owner
18 120 Passaglia	1	120	Howe / Yun
