Seller Disclosure Report – Additional Information

1005 Main St. Mukwonago, WI

The previous owner of 1005 Main St. had been somewhat limited in keeping up with routine maintenance of the business condominium. After purchasing the property in 2022, the current owner took steps to bring the property up to date, including having the roof and other aspects of the property professionally inspected. Certain issues were identified during those inspections and were subsequently corrected.

Since that time, the property has received regular maintenance, inspections, and necessary repairs. The current owner has been proactive in addressing maintenance needs and keeping the property in good condition.

At one point, one of the three toilets experienced a backup. A licensed plumber was contacted and inspected the issue. The plumber advised that the backup appeared to be related to the flushing of paper towels or other non-dissolvable paper products. As a preventative measure, dissolvable paper towels and toilet paper were provided for use in the building.

To further evaluate the plumbing system and rule out any underlying issues with the building's sewer lines, a second plumbing contractor was engaged to perform a camera inspection of the pipes leading from the building to the municipal sewer system. The inspection was completed, and no defects, obstructions, or other issues with the plumbing lines were identified. At the time of the inspection, the plumbing and sewer lines were reported to be in satisfactory condition.

This .98-acre property is home to two business condominiums. The building is centrally positioned on the parcel, with the driveway and 33 parking spaces surrounding the building. The layout provides convenient access, ample parking, and efficient use of the property.
