Smart Home Features

2010 E WINDSOR PL, A

● **Motorized window shades**: IKEA remote-controlled cellular shades on nine windows, including primary-bedroom blackout shades with light-blocking tracks.

● **Smart lighting**: Lutron Caséta smart switches in the living areas, kitchen, entryway, and stairways offer WiFi app control and familiar wall-switch operation. IKEA smart fixtures serve the pantry and primary-bedroom closet.

● **Smart climate control**: Ecobee smart thermostat with remote temperature control, programmable schedules, and additional room sensors.

● **Laundry appliances**: Wi-Fi-enabled Miele washer with automatic detergent dispensing and a Miele ventless heat-pump dryer. (NOTE: this was not an improvement in my ownership, but it is part of the smart home items)

● **Keyless courtyard entry**: Aqara smart lock with fingerprint and PIN-code access, plus Apple home key compatibility.

● **Smart security system**: Abode system with door sensors, window sensors, and wireless keypads.

● **Smart garage access**: Meross and myQ controls provide app-based garage-door control and door-status monitoring.

● **Energy monitoring**: Sense system tracks household electricity consumption and usage trends.
