ARTICLE TWO

NAME OF CONDOMINIUM

The Condominium Property, and all property described in Exhibit A, attached hereto, and all property herein subject to the Act shall be identified as **THE VILLAS AT ECHO LANE**.

ARTICLE THREE

BUILDINGS AND DWELLING UNITS

1. Description of Buildings. Five (5) buildings will be constructed in the location as shown on the Condominium Plat attached to this Declaration as Exhibit A.

The condominium dwelling units in the buildings are called "units", and their boundaries are described in Section 2 of this Article Three. Each unit is connected to the municipal sewer system and has an individual hot water heater and individual heating and air conditioning systems. All utilities will be separately metered. Each building will be connected to a single private well for the purpose of furnishing water to each unit in that building. The cost of maintaining and repairing each well shall be allocated equally among the unit owners whose units are served by that well. Declarant shall have no liability to any unit owner or mortgagee of a unit for any failure to commence or complete construction of any units, common elements, limited common elements, buildings, or other improvements to the property or condominium.

2.

Description of Units.

A. Each unit has a letter and number designation, and the location and common area and limited common area to which it has access are shown on the Condominium Plat attached to this Declaration as Exhibit A. Working drawings and general specifications for the units are set forth within Exhibit A.

B. The boundaries of each unit, including the garage space belonging to the unit, shall consist of that part of the cubic area of the building enclosed as follows:

1. Horizontal Boundaries:

a. The upper boundaries of the units shall be the plane of the undecorated, finished, or the unfinished interior of the roof (including the attic area) and extended to an intersection with the vertical boundaries;

b. The lower boundaries of the unit shall be the plane of the undecorated, finished floor extended to an intersection with the vertical boundaries.

2. Vertical Boundaries: The vertical boundaries of the unit shall be the plane of the undecorated, finished interior of the perimeter walls, including the first layer of dry wall and extending to intersections with each other and with the upper and lower boundaries.

C. Each unit shall include the inner surfaces of the finished perimeter walls, ceilings and floors and all windows, moldings, window frames and doors (including all glass in doors and garage doors) in or

apportionment to a unit.

D. The structural portions of each building, any smoke detectors and fire alarms and the exterior surface of the garage door shall be common elements except as stated in Section 4C of this Article Three. Utility lines and plumbing equipment located outside of the units shall be repaired and maintained by and at the expense of the Villas at Echo Lane Condominium Association. The heating and air conditioning systems and water heater for each unit shall be considered part of the unit and repaired and maintained by and at the expense of the unit owner.

E. If any portion of the common or limited common elements shall encroach upon any unit, or if any unit shall encroach upon any other unit or upon a portion of the common or limited common elements as a result of the construction, reconstruction, or repair of the building, or as the result of settling or shifting of the building, a valid easement for the encroachment and for its maintenance shall exist so long as the building stands. The existing physical boundaries of a unit or common elements constructed or reconstructed in substantial conformity with the Condominium Plat shall be conclusively presumed to be the boundaries of the units, regardless of the shifting settlement or lateral movement of the building and regardless of minor variations between the physical boundaries described in this Declaration or shown on the Condominium Plat and the existing physical boundaries of any such unit or common element.

F. It is intended and understood that real estate taxes are to be separately taxed to each unit owner for his unit and his corresponding percentage of ownership in the common elements, as provided in the Act. In the event that for any year, such taxes are not separately taxed to each unit owner, but are taxed on the property as a whole, then each unit owner shall pay his proportionate share thereof in accordance with his respective percentage of ownership interest in the common elements.

G. Each unit owner shall pay for his own natural gas, cable TV, telephone, electricity, sewer and other utilities which are separately metered or billed to each user by the respective utility company. Utilities which are not separately metered or billed shall be treated as part of the common expenses, except that a unit owner shall only be responsible for the pro-rata expenses relating to that particular water well which serves his unit.

H. Each unit owner shall be responsible for his own insurance on the contents of his own unit, and his additions and improvements thereto and decorating and furnishings and personal property therein, and his personal property stored elsewhere on the property, and his personal liability, all to the extent not covered by the fire and liability insurance for all of the unit owners obtained as part of the common expenses.

ARTICLE FIVE
