Potential Start Date

## Summary

### Additional Instructions

Based on the age of the house the home does not have interior drain tile the fieldstone Foundation walls are very reliant on grade being pitched properly along with working gutters downspouts and extensions. We recommend having a landscaper at window wells and regrade perimeter of the home with a blended soil along with making corrections to downspouts and gutters. If these surface water issues our address that should stop I'm going water infiltration.

All work done per the State of Wisconsin Uniform Building Code
