TUNNEL SYSTEM/Cable Notes

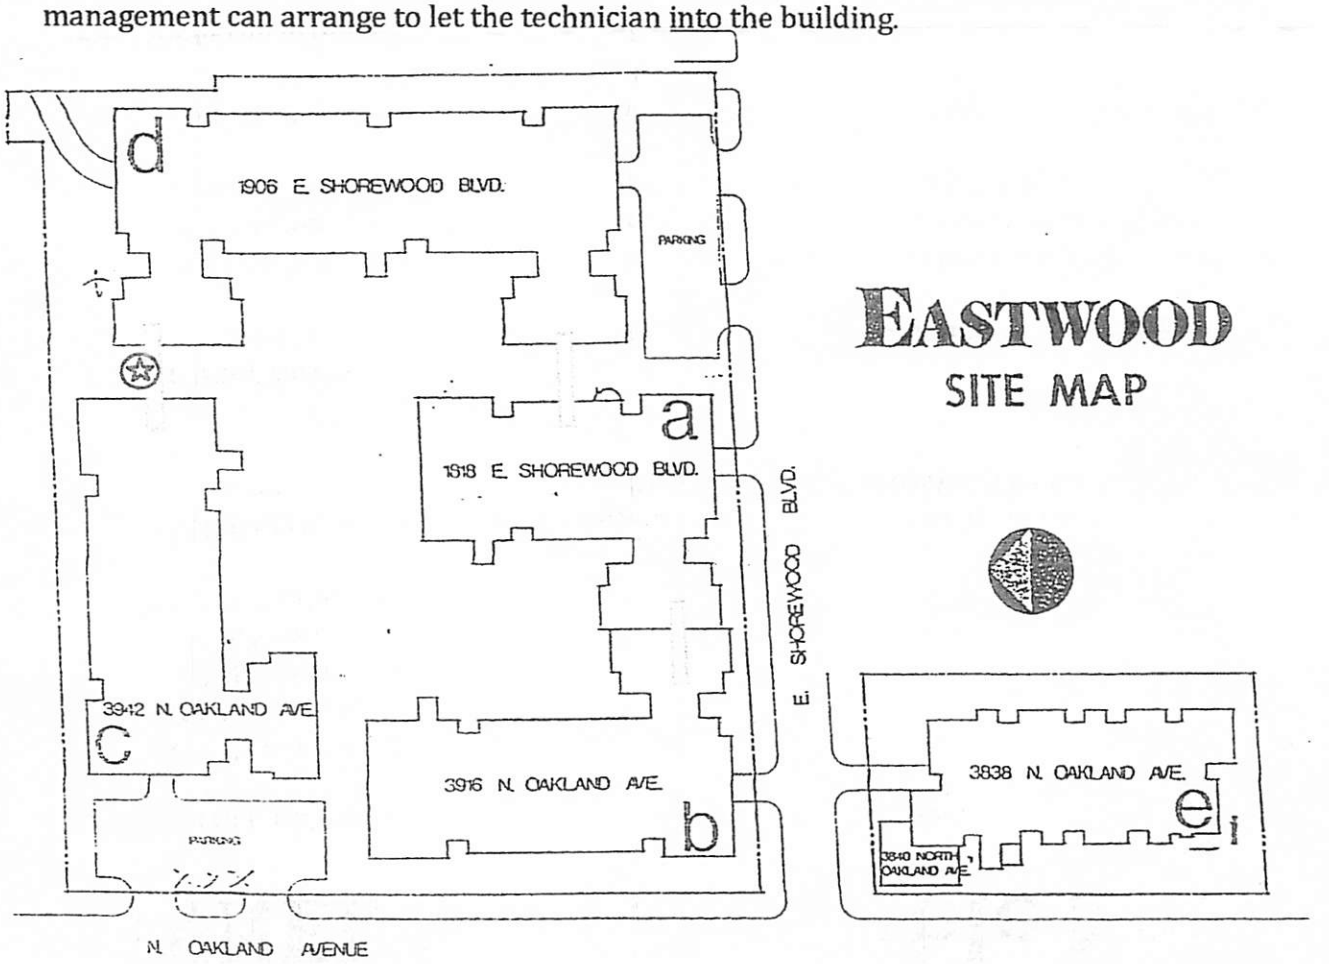

The Eastwood buildings are labeled by address and building number.
v

1818 E. Shorewood Blvd "A"
3916 N. Oakland Ave "B"
3942 N. Oakland Ave "C"
1906 E. Shorewood Blvd "D"
3838 N. Oakland Ave "E"

The four buildings to the north of E. Shorewood Blvd are connected by an underground tunnel system. The entrances to these tunnels are located at the garage level. The tunnels are highlighted on the map below.

Cable Provider Notes:
Spectrum connection boxes are located in the garages of each building.

AT&T connection boxes are located in a locked room in the tunnel between 1906 and 3942. (*Indicated by a circled star on the map below.) You will need to escort your AT&T technician through the tunnels to this room, outside the room is a lock box that the technician will have a key to open.
*If you live in 3838, your building key will not allow access to the other buildings. Please arrange your installation time weekdays between 8:00-4:00pm. Call the Eastwood office so that management can arrange to let the technician into the building.
