

**RESPONSIBILITIES OF SELLERS UNDER
RESIDENTIAL LEAD-BASED PAINT HAZARD REDUCTION ACT
GREATER KALAMAZOO ASSOCIATION OF REALTORS®
*Information for Sellers and Buyers***

The disclosure requirements listed below are imposed on sellers of residential housing **built prior to 1978**.

1. Sellers must disclose the presence of any lead-based paint hazards actually known to the seller. A Lead-Based Paint Seller's Disclosure Form for providing such information is provided. This disclosure must be made prior to the sellers' acceptance of the buyers' offer. An offer may not be binding until the disclosure requirements are satisfied and the buyers have had an opportunity to review the disclosure language and amend their offer, if they wish.
 - a. If the sellers are aware of the presence of lead-based paint and/or lead-based paint hazards in the property being sold, the disclosure must provide any information available concerning the known lead-based paint and/or lead-based paint hazard, including the following:
 - i. The sellers' basis for determining that lead-based paint and/or lead-based paint hazards exist;
 - ii. The location of the lead-based paint and/or lead-based paint hazards; and
 - iii. The condition of the painted surfaces.
 - b. If a lead-based paint hazard is not known to the seller, the disclosure must include a statement disclaiming such knowledge.
 - c. The sellers must provide a list of any records and reports available to sellers pertaining to lead-based paint and/or lead-based paint hazards, copies of which must be provided to the buyers. (If no such records or reports exist, the disclosure statement should affirmatively so state.)
 - d. The disclosure must include the government-mandated Lead Warning Statement.
2. Sellers must provide buyers with a copy of the federal pamphlet entitled *Protect Your Family From Lead In Your Home*. Again, a copy of this pamphlet is available from your Agent.
3. Sellers must permit a buyer a ten (10) day period (unless the parties mutually agree, in writing, upon a different period of time) to have the property tested for lead-based paint before the buyers become obligated under the Buy and Sell Agreement.

By signing on page 2, the parties acknowledge that the Agent(s) have reviewed the contents of the Responsibilities of Sellers Under Residential Lead-Based Paint Hazard Reduction Act and provided a copy. If signed electronically, you confirm that you: 1) consent to receive disclosures in electronic format; 2) can successfully open, view, and save electronic documents; 3) understand your right to request paper copies at no cost and 4) understand how to withdraw your consent to electronic delivery.

We are responsible for ensuring you receive complete access to all required disclosure materials, whether delivered electronically or on paper.

LEAD-BASED PAINT SELLER'S DISCLOSURE FORM**Lead Warning Statement**

Form #: 8202LBP

Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular threat to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.
