

The dashed lines with numbers are Federal Roads — 2-tracks going through the forest. As you can see, your property is surrounded on all four sides by Federal Land (USFS). The 2-tracks do not go to the property. A new owner would have to get a permit to push a drive through from the north.

OR MAYBE...

"120" is Brooks Road. The property between yours and Brooks Road is also Federal. Maybe a drive could be pushed in from the west.
