Any Additional Information:

1-Several ground floor units in association have experienced clogged/backed up sewer drainage line between unit and street. Easily cleared by roto-rooter and thought to be associated with upper floor units use of garbage disposal units. To mitigate risk of clogging/backup to first floor unit owners, seller removed garbage disposal. If/when these clogs/backups occur, condo rules split payment of costs of roto-rooter bill three ways (second floor unit 1/3, first floor unit 1/3, condo assn 1/3). All buildings in association have had this happen.

2-Hallway bathtub drains slowly. Plumber assessed and reported that is not due to any clog but rather due to high flow of water into tub.

Please use additional sheets as necessary.
