CEDAR RAPIDS AREA ASSOCIATION OF REALTORS

SELLER'S PROPERTY DISCLOSURE

Subject Property Address: 3350 150th Street, Riverside, IA 52327

Purpose of Statement: Completion of this form shall satisfy the requirements of the Iowa Code which mandates the Seller's disclosure of the condition of and information about the property the Seller(s) is/are about to sell. This statement shall not be a warranty of any kind by the Seller(s) or Seller's agent and shall not be intended as a substitute for any inspection or warranty the Buyer(s) may wish to obtain.

Seller's Disclosure: As the Seller(s), I/we disclose the following information regarding the property and certify that this information is true and accurate to the best of my/our knowledge as of the date signed. Seller(s) authorize(s) the agent to provide a copy of this statement to any person or entity in connection with the actual or anticipated sale of the property. The following are representations made by Seller(s) and are not the representations of the agent, who has no independent knowledge of the condition of the property except that which is set out on this form and the Seller(s) agree(s) to indemnify and hold the brokers and members of the Multiple Listing Service harmless in the event that it is incorrect. **Please be aware that the Purchase/Sales Contract supersedes this Seller's Property Disclosure and the MLS listing. *Items included or excluded in the Purchase/Sales Contract will take precedence.***

Instructions to the Seller(s): (1) Complete this form yourself and fill in all blanks regarding the time you have owned the property. (2) Report known adverse conditions affecting the property. These conditions or occurrences may be but are not limited to matters that may significantly and adversely affect the value of the property, significantly reduce the structural integrity of improvements to the real estate and/or present a significant health risk to the occupants of the property. (3) Additional pages or reports may be attached. (4) If some items do not apply to your property, answer N/A. (5) All approximations must be identified as approximations with AP. If you do not know the facts, answer with Unknown or UNK.

Owner's name(s). Please print: Kenneth Bland

Groundwater Hazard:

Is there a private burial site, well, geothermal system, solid waste disposal, underground storage tank, hazardous or private sewage disposal system on the property as described in Iowa Code section 558.69? If no, this transaction is exempt from the requirement to submit a Groundwater Hazard Statement.
☒ Yes ☐ No

Exempt Properties: Properties exempted from the Seller's disclosure requirement include (IA Code 558A): Bare ground; property containing 5 or more dwelling units; court ordered transfers; transfers by power of attorney; foreclosures; lenders selling foreclosed properties; fiduciaries in the course of an administration of a decedent's estate, guardianship, conservatorship, or trust; between joint tenants, or tenants in common; to or from any governmental division; quit claim deeds; intra-family transfers; between divorcing spouses; commercial or agricultural property which has no dwellings. This exemption shall not apply to a transfer of real estate in which the fiduciary is a living natural person and was an occupant in possession of the real estate at any time within the twelve consecutive months immediately preceding the date of transfer. ☐ Property is exempt because one or more of the above exemptions apply. **(If exempt – STOP HERE AND SIGN)**

SELLER DISCLOSURE ADDENDUM

Previous Inspection Findings and Corrective Actions

Property: 3350 150th St, Riverside, IA 52327
Seller: Kenneth J. Bland
Parcel Numbers: 0425300020 and 0425300018

This addendum supplements the Seller's Property Disclosure Statement and identifies deficiencies noted during the home inspection conducted by Hometime Inspections, LLC, on August 31, 2026, together with corrective actions subsequently taken by the Seller.

1. Electrical / Bathroom GFCI Breaker

Inspection Finding: The GFCI breaker serving the main-floor primary bathroom was tripped and immediately tripped again when reset.

Corrective Action: The electrical issue was addressed, including the affected GFCI breaker and associated bathroom receptacles.

Contractor: Ken's Maintenance, Lone Tree, Iowa.

2. Kitchen Sink / Garbage Disposal / Bathroom Plumbing

Inspection Findings: The garbage disposal was not operational, the kitchen sink was clogged, the right primary bathroom sink was not functional, and the central bathroom toilet was shut off.

Corrective Actions: The plumbing deficiencies were addressed. The garbage disposal was unplugged and reconnected by Seller and restored to operation, and the affected sinks, drainage, and toilet were returned to functional condition.

3. Well System / Water Pressure / Discoloration

Inspection Findings: Low water pressure and discolored water were observed during the inspection.

Corrective Actions: Gingrich Well & Pump Service, LLC installed a brand-new jet pump on September 30, 2026, along with the necessary plumbing fittings and connections. The water heater was also drained to address the reported discoloration, which subsequently subsided. The Water Shop additionally serviced the water softener to restore proper water treatment.

Contractors: Gingrich Well & Pump Service, LLC, and The Water Shop, Kalona, Iowa.

dotloop signature verification: dtlp.us/pbaP-bxEm-eAQF

4. Elevated Manganese / Water Softener

Inspection Finding: Initial water testing identified elevated manganese levels.

Corrective Actions: The Water Shop serviced the water softener, corrected the bypass valves, and restored proper operation. The Water Shop subsequently collected softened-water and reverse-osmosis water samples on October 1, 2026. The State Hygienic Laboratory at the University of Iowa tested both samples and confirmed manganese concentrations below the laboratory's listed action level of 0.30 mg/L.

Contractor: The Water Shop, Kalona, Iowa.
Testing Laboratory: State Hygienic Laboratory at the University of Iowa.

5. Exterior Wood-Burning Heating System

Inspection Finding: The exterior wood-burning heating system was identified as an item for further professional evaluation.

Disclosure: The exterior wood-burning heating system is a supplemental heating source and is not the property's primary heating system. No professional evaluation or corrective repair is documented.

6. Oven Burners / Refrigerator

Inspection Findings: The gas oven burners exhibited unusual flame behavior, and the refrigerator showed evidence of a previous power interruption.

Corrective Actions: The gas range was serviced, including replacement of the gas valve pressure regulator. The refrigerator was evaluated, and a replacement water filter was ordered as part of the service work.

Contractor: Archer Appliance & Electronic, Washington, Iowa.

7. Detached Garage Door Opener

Inspection Finding: The garage door opener was disconnected and not operational at the time of inspection.

Corrective Action: The garage door opener was restored to operational condition.

Work Completed By: Seller.

8. Septic System

dotloop signature verification: dtlp.us/pbaP-bxEm-eAQF

Inspection Findings: The septic system inspection identified deficiencies involving the septic alarm, lids, and risers.

Corrective Actions: The septic repairs were completed in September 2026, including replacement of two risers, three lids, and installation of a septic alarm.

Contractor: Frank Septic and Excavation, Riverside, Iowa.

9. Additional Property Maintenance / Repairs

Animal-Damaged Wiring

Corrective Action: Wiring associated with animal damage was repaired.

Contractor: Ken's Maintenance, Lone Tree, Iowa.

Toilet Drain Maintenance

Corrective Action: A service call was completed to address the toilet drain.

Contractor: Calvin – Colony Plumbing.

10. Additional Inspection Findings

The previous home inspection also identified the following conditions:

- Exterior railings described as substandard and presenting a potential safety concern.
- Cracked or settled patio surfaces presenting a possible trip hazard.
- A loose rubber boot at the detached garage chimney.
- A gas range ventilation system that recirculates air rather than exhausting outdoors.
- A recommendation for professional inspection of wood-burning fireplaces or stoves before use, along with a missing fireplace spark screen.
- Grading and drainage concerns near the structure.
- Evidence of previous moisture intrusion at the laundry-room exterior door.

These additional findings are disclosed for transparency. No completed corrective actions are represented for these items unless separately documented.
