Alias The Bugman has performed treatments on the properties located at **1140 Crestview Dr SE, Cedar Rapids** for Subterranean Termites on **10/2/26**. All “readily accessible” areas (per form NPMA-33) were meticulously inspected. A readily accessible area refers to accessible and/or visible areas that could be visually inspected by our trained and licensed professional. Your property is now deemed clear of any termite activity as of the time of treatment, and given a two year warranty with Alias The Bugman against the infestation of termites until **10/2/2028**.

Two Year Termite Warranty

If further spot treatment is needed to control an infestation of Subterranean Termites within two years of the initial treatment date, it shall be performed free of charge. This additional service may be renewed every two years for the cost of \$100.

This agreement does not warrant against any future or currently present damage to the structure or contents, nor does it provide for any repair costs. This warranty is not applicable for the control of carpenter ants, carpenter bees, wood boring beetles, fungus/mildew/mold and/or non-insect wood destroying pests.

The property owner must contact Alias The Bugman before the expiration of the warranty for service renewal. Please sign and return to Alias The Bugman if you wish to continue the warranty after the end of the second year.

I would like to renew my Termite treatment warranty for two calendar years at a cost of \$100 (includes tax).
