Any Additional Information:

After derratio we had cosmetic damage to roof and gutters but no leaking therefore replacement did not happen until fall of 2021 after the roof and gutters were replaced we had house repainted. During that process woodpecker damage was on North wood siding and so we replaced it before painting. When removing the damaged siding, contractors reset the two north windows in the lower bedrooms as they were not originally installed correctly. Other windows were checked and were all fine and those two windows were reset correctly and entire house was repainted.

Please use additional sheets as necessary.
